Date Sundry Submitted: 10/22/2024

Date proposed operation will begin: 10/15/2024

Type of Action: APD Change Time Sundry Submitted: 10:18

Sundry Print Report

**Procedure Description:** OXY USA Inc., respectfully requests to amend the submit AAPDs. A drilling verbal approval was granted on 10/15/24 for the following revision: Change the permitted casing weight from surface to KOP from 23# to 20#. The TVDs fall within the envelope of the Blanket Design A so 5.5in 20# csg does meet all the design requirements. There are no changes to connections, annular clearance, etc. The permitted 23# from KOP to TD is not changing.

.

This form is designed for submitting proposals to perform certain well operations and reports of such operations when completed as indicated on Federal and Indian lands pursuant to applicable Federal law and regulations. Any necessary special instructions concerning the use of this form and the number of copies to be submitted, particularly with regard to local area or regional procedures and practices, are either shown below, will be issued by or may be obtained from the local Federal office.

## SPECIFIC INSTRUCTIONS

*Item 4* - Locations on Federal or Indian land should be described in accordance with Federal requirements. Consult the local Federal office for specific instructions.

*Item 13:* Proposals to abandon a well and subsequent reports of abandonment should include such special information as is required by the local Federal office. In addition, such proposals and reports should include reasons for the abandonment; data on any former or present productive zones or other zones with present significant fluid contents not sealed off by cement or otherwise; depths (top and bottom) and method of placement of cement plugs; mud or other material placed below, between and above plugs; amount, size, method of parting of any casing, liner or tubing pulled and the depth to the top of any tubing left in the hole; method of closing top of well and date well site conditioned for final inspection looking for approval of the abandonment. If the proposal will involve **hydraulic fracturing operations**, you must comply with 43 CFR 3162.3-3, including providing information about the protection of usable water. Operators should provide the best available information about all formations containing water and their depths. This information could include data and interpretation of resistivity logs run on nearby wells. Information may also be obtained from state or tribal regulatory agencies and from local BLM offices.

## NOTICES

The privacy Act of 1974 and the regulation in 43 CFR 2.48(d) provide that you be furnished the following information in connection with information required by this application.

AUTHORITY: 30 U.S.C. 181 et seq., 351 et seq., 25 U.S.C. 396; 43 CFR 3160.

PRINCIPAL PURPOSE: The information is used to: (1) Evaluate, when appropriate, approve applications, and report completion of subsequent well operations, on a Federal or Indian lease; and (2) document for administrative use, information for the management, disposal and use of National Resource lands and resources, such as: (a) evaluating the equipment and procedures to be used during a proposed subsequent well operation and reviewing the completed well operations for compliance with the approved plan; (b) requesting and granting approval to perform those actions covered by 43 CFR 3162.3-2, 3162.3-3, and 3162.3-4; (c) reporting the beginning or resumption of production, as required by 43 CFR 3162.4-1(c)and (d) analyzing future applications to drill or modify operations in light of data obtained and methods used.

ROUTINE USES: Information from the record and/or the record will be transferred to appropriate Federal, State, local or foreign agencies, when relevant to civil, criminal or regulatory investigations or prosecutions in connection with congressional inquiries or to consumer reporting agencies to facilitate collection of debts owed the Government.

EFFECT OF NOT PROVIDING THE INFORMATION: Filing of this notice and report and disclosure of the information is mandatory for those subsequent well operations specified in 43 CFR 3162.3-2, 3162.3-3, 3162.3-4.

The Paperwork Reduction Act of 1995 requires us to inform you that:

The BLM collects this information to evaluate proposed and/or completed subsequent well operations on Federal or Indian oil and gas leases.

Response to this request is mandatory.

The BLM would like you to know that you do not have to respond to this or any other Federal agency-sponsored information collection unless it displays a currently valid OMB control number.

**BURDEN HOURS STATEMENT:** Public reporting burden for this form is estimated to average 8 hours per response, including the time for reviewing instructions, gathering and maintaining data, and completing and reviewing the form. Direct comments regarding the burden estimate or any other aspect of this form to U.S. Department of the Interior, Bureau of Land Management (1004-0137), Bureau Information Collection Clearance Officer (WO-630), 1849 C St., N.W., Mail Stop 401 LS, Washington, D.C. 20240

Subject: [EXTERNAL] Blanket Design Sundry - Production Casing Design (Weight Only) - Mesa Verde WC Lower

This email has been received from outside of DOI - Use caution before clicking on links, opening attachments, or responding.

Hi Keith,

In an attempt to save some cost, we are looking at using 5.5in 20# x 23# tapered strings on our Mesa Verde WC-B wells on H&P 620 and Citadel 2. Our standard design has been 20# csg, but we started permitting some deeper wells with 23# csg recently such as these wells to help with collapse rating while floating casing. A tapered weight design represents a cost optimized hybrid of these two options.

For Mesa Verde, this change requires a change in permitted casing wt from surface to KOP from 23# to 20# --- I will point out the TVDs fall within envelope of the Blanket Design A so 5.5in 20# csg does meet all the design requirements. There are no changes to connections, annular clearance, etc... The permitted 23# from KOP to TD is not changing.

We would like to workout a verbal approval with you, so we can submit blanket sundry formally and get this implemented.

Have a look at all this and let me know if you have any questions,

#### Wells in Scope:
