Voluntary Unit Termination

Burnett Oil Co., Inc.
Attn: Kristine Pilgrim
Burnett Plaza - Suite 1500
801 Cherry Street- Unit 9
Fort Worth, TX 76102

Re: **Termination of Grayburg Jackson San Andres Unit (NMNM070957X)**

To Whom It May Concern:

Your request for voluntary termination of the Grayburg Jackson San Andres Unit (NMNM070957X) Unit Agreement, Eddy County, New Mexico, is hereby approved, **effective December 1, 2024**, pursuant to the Section 22 requiring 90% working interest owners' signatures.

"The agreement may be terminated for any time for any reason with the approval of the Director by Working Interest Owners having at least ninety percent (90%) Unit Participation, as determined from Exhibit "C". Notice of such termination shall be given by Unit Operator to all parties hereto.

Upon termination of this agreement, Unit operations shall cease, and thereafter the parties hereto shall be governed by the terms and provisions of the leases and contracts affecting the separate Tracts."

The BLM concurs with Burnett Oil that the cost to fix and update the current infrastructure for secondary recovery is uneconomic, and the six active wells have become uneconomic to continue production in the current producing zones. Furthermore, the economics look more favorable for transitioning to commingling the Grayburg and San Andres formations, which provide a better opportunity for future production.

The termination of the Unit would protect the public interest, prevent waste, and allow for future development of the Lease. Burnett Oil Co. has over 90% working interest and effective control of the unit acreage and you have fulfilled the Public Interest Requirement as defined in 43 CFR 3183.4(b).

The existing producing wells within the Grayburg Jackson San Andres Unit will report their production to the lease **effective December 1, 2024**. Burnett Oil Co. shall submit a sundry to the Carlsbad Field Office to drop "Unit" from the well name of each producing well and/or revert to original lease naming convention. Copies of this letter are being distributed to the appropriate Federal agencies. It is requested that you furnish notice of this termination to each interested owner, lessee, and lessor.

The following Federal lease committed to a unit shall continue in effect for the original term of the lease or for 2 years after the termination of the unit agreement, whichever is longer, pursuant to 43 CFR 3107.4.

Federal Leases	Status
NMLC 0029338A	HBP

Re: Termination of Unit – Grayburg Jackson San Andres Unit (NMNM070957X)

Dear Mr. Paradis:

As Unit Operator, Burnett Oil Co., Inc. (“Burnett”) request termination of the Grayburg Jackson San Andres Unit (“GJSAU”) (NMNM070957X) effective December 1, 2024. The Unit Agreement contains the following language to terminate the unit at Section 22, page 20 as follows:

“The agreement may be terminated for any time for any reason with the approval of the Director by Working Interest Owners having at least ninety percent (90%) Unit Participation, as determined from Exhibit “C”. Notice of such termination shall be given by Unit Operator to all parties hereto.

Upon termination of this agreement, Unit operations shall cease, and thereafter the parties hereto shall be governed by the terms and provisions of the leases and contracts affecting the separate Tracts.”

After a detailed assessment, it has been determined that the GJSAU Unit is no longer economically viable to maintain. The cost to fix and update the current infrastructure for secondary recovery is uneconomic, and the wells have become uneconomic to continue production in the current producing zones. Furthermore, the economics look more favorable for transitioning to commingling the Grayburg and San Andres formations, which provide a better opportunity for future production. Currently we are limited on these recompletion opportunities due to the formation limitations that exist in the GJSAU Unit. With it being terminated, Burnett Oil will be able to pursue those recompletions that will make these existing wellbores economically profitable again. All remaining wells will be produced on a lease basis.

All working interest owners agree with this request to terminate the Unit. I have included signed documentations from those owners for your review, as well as an up-to-date Exhibit C from the Unit Agreement.

Burnett Plaza – Suite 1500
801 Cherry Street – Unit #9

Fort Worth, TX 76102
(817) 332-5108

Also provided is documentation on the leases and how they are "held-by production" by other wells at different depths and, the 2024 Plan of Development (POD) dated April, 2024.

Burnett would appreciate your prompt termination of the Grayburg Jackson San Andres Unit (NMNM070957X) and requests that any inquires be directed to:

RE: Dissolution of Unit – Grayburg Jackson San Andres Unit (“GJSAU”)
Township 17 South, Range 30 East, N.M.P.M.
Eddy County, NM

Ladies and Gentlemen:

Reference is made to the captioned unit, a copy of the GJSAU Unit Agreement (“Agreement”) as well as a plat included herewith. The GJSAU is operated by Burnett Oil Co., Inc. The unit was created in April of 1967 as a secondary recovery project to maximize the economic recovery of unitized substances. The GJSAU currently produces approximately 152 BO and 60 MCF per month. While the flood was implemented in its entirety as originally planned over the years, Burnett no longer injects in or is producing all patterns and believes the Unit has no further benefit or potential for the secondary recovery and hereby recommends the dissolution of the GJSAU.

The dissolution of the unit will allow Burnett the ability to comingle and recomplete inactive and low producing wells within the Loco Hills boundary to known producing intervals. Dissolution of the Unit will not affect any lease which shall continue in full force and effect thereafter, and the parties hereto shall be governed by the terms and provisions of the leases and contracts affecting the separate tracts.

Section 22 of the Agreement states that the termination of the Agreement is subject to the approval of the working interest owners having at least ninety percent (90%) Unit Participation. For reference, be advised that Burnett and its related entities have over ninety-six percent (96%) WI in the GJSAU. Please indicate your approval on the attached form and return it to my attention.
