OCD Approval: ☒ Permit Application (including closure plan) ☐ Closure Plan (only) ☐ OCD Conditions (see attachment)OCD Representative Signature: Ed Martin

Approval Date: 4/28/10

Title: **DISTRICT SUPERVISOR**

OCD Permit Number: _____

21.

Closure Report (required within 60 days of closure completion): Subsection K of 19.15.17.13 NMAC*Instructions: Operators are required to obtain an approved closure plan prior to implementing any closure activities and submitting the closure report. The closure report is required to be submitted to the division within 60 days of the completion of the closure activities. Please do not complete this section of the form until an approved closure plan has been obtained and the closure activities have been completed.*☒ Closure Completion Date: 6/22/10

22.

Closure Method:☐ Waste Excavation and Removal ☒ On-Site Closure Method ☐ Alternative Closure Method ☐ Waste Removal (Closed-loop systems only)
☐ If different from approved plan, please explain.

23.

Closure Report Regarding Waste Removal Closure For Closed-loop Systems That Utilize Above Ground Steel Tanks or Haul-off Bins Only:*Instructions: Please identify the facility or facilities for where the liquids, drilling fluids and drill cuttings were disposed. Use attachment if more than two facilities were utilized.*

Disposal Facility Name: _____

Disposal Facility Permit Number: _____

Disposal Facility Name: _____

Disposal Facility Permit Number: _____

Were the closed-loop system operations and associated activities performed on or in areas that *will not* be used for future service and operations?☐ Yes (If yes, please demonstrate compliance to the items below) ☐ No

Required for impacted areas which will not be used for future service and operations:

- ☐
- Site Reclamation (Photo Documentation)
-
- ☐
- Soil Backfilling and Cover Installation
-
- ☐
- Re-vegetation Application Rates and Seeding Technique

24.

Closure Report Attachment Checklist: *Instructions: Each of the following items must be attached to the closure report. Please indicate, by a check mark in the box, that the documents are attached.*

- ☒
- Proof of Closure Notice (surface owner and division)
-
- ☐
- Proof of Deed Notice (required for on-site closure)
- N/A*
-
- ☒
- Plot Plan (for on-site closures and temporary pits)
-
- ☒
- Confirmation Sampling Analytical Results (if applicable)
-
- ☒
- Waste Material Sampling Analytical Results (required for on-site closure)
-
- ☐
- Disposal Facility Name and Permit Number
- N/A*
-
- ☒
- Soil Backfilling and Cover Installation
- per original C-144*
-
- ☒
- Re-vegetation Application Rates and Seeding Technique
- per original C-144*
-
- ☐
- Site Reclamation (Photo Documentation)

On-site Closure Location: Latitude 35° 79'05" N Longitude 103° 8'31.32" W NAD: ☐ 1927 ☒ 1983

Subject: Pit Closures and Pulling Unit Schedule

Landowner Closure Notice

Terry,

We plan to start closing the pits on the two mesa wells south of Hwy 39 (1829-141F and 1829-231G) later this week. Each closure should take about 3 days. Next week, we should start closing the pit on 1829-111F which is the mesa well north of Hwy 39 about one mile north of your caliche pit.

We will have a pulling unit on the well off Alamosita Ln today. We should have the pulling unit on 1829-141F (next to the caliche pit) before the end of the week. Next week, we plan to have the pulling unit on two older wells with tubing leaks. These wells are 1930-301F (Water Ln) and 1930-311K (North Bar T Ln). We plan to lay down the tubing on these two wells and change them out with fiberglass tubing. I will advise when they are on the ground.

If you have any questions, please let me know.

thanks,
Danny

1829-141F

Ed,
Here are lab results on wells # 7 - 9. If I'm reading this correctly, looks like chlorides are high on two of the three pit contents and will need to be mixes to get below the 3000 kg/mg limit. Looks like all other results are below the thresholds. If you concur, we will work the closure of these three pits into our work schedule.
Thanks,
Danny
