Title: DISTRICT SUPERVISOR

OCD Permit Number:

21.

Closure Report (required within 60 days of closure completion): Subsection K of 19.15.17.13 NMAC*Instructions: Operators are required to obtain an approved closure plan prior to implementing any closure activities and submitting the closure report. The closure report is required to be submitted to the division within 60 days of the completion of the closure activities. Please do not complete this section of the form until an approved closure plan has been obtained and the closure activities have been completed.*☒ Closure Completion Date: 5/27/10

22.

Closure Method:☐ Waste Excavation and Removal ☒ On-Site Closure Method ☐ Alternative Closure Method ☐ Waste Removal (Closed-loop systems only)
☐ If different from approved plan, please explain.

23.

Closure Report Regarding Waste Removal Closure For Closed-loop Systems That Utilize Above Ground Steel Tanks or Haul-off Bins Only:*Instructions: Please identify the facility or facilities for where the liquids, drilling fluids and drill cuttings were disposed. Use attachment if more than two facilities were utilized.*

Disposal Facility Name:

Disposal Facility Permit Number:

Disposal Facility Name:

Disposal Facility Permit Number:

Were the closed-loop system operations and associated activities performed on or in areas that will not be used for future service and operations?

☐ Yes (If yes, please demonstrate compliance to the items below) ☐ No

Required for impacted areas which will not be used for future service and operations:

- ☐
- Site Reclamation (Photo Documentation)
-
- ☐
- Soil Backfilling and Cover Installation
-
- ☐
- Re-vegetation Application Rates and Seeding Technique

24.

Closure Report Attachment Checklist: *Instructions: Each of the following items must be attached to the closure report. Please indicate, by a check mark in the box, that the documents are attached.*

- ☒
- Proof of Closure Notice (surface owner and division)
-
- ☐
- Proof of Deed Notice (required for on-site closure) N/A
-
- ☒
- Plot Plan (for on-site closures and temporary pits)
-
- ☒
- Confirmation Sampling Analytical Results (if applicable)
-
- ☒
- Waste Material Sampling Analytical Results (required for on-site closure)
-
- ☐
- Disposal Facility Name and Permit Number N/A
-
- ☒
- Soil Backfilling and Cover Installation Per original C-144
-
- ☒
- Re-vegetation Application Rates and Seeding Technique Per original C-144
-
- ☐
- Site Reclamation (Photo Documentation) N/A

Subject: RE: WEST BRAVO DOME

You are allowed to mix the contents of the pit on 1929-221J to dilute the concentration down to below 3000 mg/Kg. Maximum mixing ration is 3:1. This should get it down below acceptable limit.

When you get ready to close these pits, may I have a tentative schedule? I would like to be out there.

Ed,
Here are the temporary pit content composite test results for the first three wells. It appears that two of them are within the limits and one exceeds the limits.

1930-181F

Terry,

Sorry for the late notice. Yesterday we started reclamation of the pit on the well off Alamosita Ln per the procedure I emailed to you a few weeks ago. The NMOC rep is onsite today insuring we comply with our permit requirements.

We should finish the first pit by tomorrow and start on the 2nd pit. If all goes well we should do the 3rd pit off Spivey Ln next week.

If you have any questions,
Please let me know.
Thanks,
Danny
