RE: Administrative Order SWD-1586; First Extension of Deadline to Commence Injection

Lost Tank SWD State Well No. 11 (API 30-015-43367)
Unit K, Sec 36, T21S, R31E, NMPM, Eddy County, New Mexico
Order Date: October 6, 2015
Injection into the Devonian formation; permitted interval: approximately 15365 feet to 15600 feet

Dear Mr. Letcher:

Reference is made to your request on behalf of EOG Y Resources, Inc. (the "operator") to extend the deadline stipulated in order SWD-1586 based upon the approval date of October 6, 2015, to commence injection for the above referenced well for an additional one year for reasons outlined in the attached correspondence.

It is the Division's understanding from your request that there have been no significant changes in the information provided in the application submitted for review and approval of this order. These changes include the completion of new wells within the Area of Review that penetrated the approved injection interval and any changes in ownership.

The Division finds that granting this request to extend this administrative order is in the interest of conservation, will prevent waste, and will protect the environment.

The deadline to commence injection for the existing order is hereby extended until October 6, 2018. All requirements of the above referenced administrative order and agreements in the application

SWD-1586: First Extension of Deadline to Commence Injection
EOG Y Resources, Inc.
September 14, 2017

**RE: Lost Tank SWD State #11 (API 30-015-43367)
Administrative Order SWD-1586 – dated October 6, 2015**

Dear Mr. Goetze,

EOG Resources, Inc. is requesting a 1-year extension for the Lost Tank SWD State #11 (API 30-015-43367) Administrative Order SWD 1586 – dated October 6, 2015.

This well was included in the merger between Yates Petroleum Corporation and EOG Resources. We have plans to drill the well within the next year, but we need more time to evaluate when we can fit this well into our drilling schedule.

We have re-reviewed the wells and "affected persons" within the ½ mile Area of Review (AOR). We have concluded that there are no new wells or "affected persons" within the ½ mile AOR that would require notice.

Thank you for your time and consideration regarding this matter.

Sincerely,

A handwritten signature in black ink that reads "Brice A. Letcher".

Brice A. Letcher, PE
Sr. Production Engineer

Goetze, Phillip, EMNRD
