Dear Mr. Martin:

Enclosed are forms C-104 and C-105 for well VPR E-018. The reports are "Amended Reports" because when initially submitted the top perforation was erroneously reported as 1971' instead of 1133'. The C-103 was not corrected because the information was correct when stating all the perforating zones. On the C-105 under #26 (Perforations) the information was listed correct but under #27 it was stated incorrect as 1971'. It was also stated incorrect on the C-104 #29 (Perforations). Changes have been highlighted in yellow on the two forms.

If you have any questions or need additional information, please contact me at (713) 420-5038 or [maria.gomez@elpaso.com](mailto:maria.gomez@elpaso.com).

Sincerely,

Maria S. Gomez
