John,

I am now in the process of reviewing all six of your recently filed Mesaverde and/or Basin Dakota non-standard gas well locations for Williams Production Company, LLC. You show the dedicated 320-acre GPU for the Dakota formation for this well as a lay-down S/2 dedication. My records show the E/2 of Section 34 in the Basin-Dakota Pool is currently dedicated to Williams Production Company's Rosa Unit Well No. 55 (API No. 30-039-20923), located 1510' FSL & 1170' FEL (Unit I) of Sec. 34.

Please provide me with a copy of the corrected OCD Form C-102 for either well showing the proper Dakota GPU that both the proposed Well No. 184-B in Unit P and existing Well No. 55 in Unit I will be sharing. Thanks.

Mike,

You are correct. I called WPX (Tulsa) and had them pull the file and the original shows the Rosa Unit Well No. 55 w/ a E/2 dedication. Some how I was sent a plat showing S/2. Sorry for the mix up. I will be sending you a revised C-102 ASAP. Call or e-mail if you need or come across anything else.

Thanks, John
