File

Reference: EE Elliott SWD Well – Permit No. SWD-376

Per our phone conversation, we are notifying you of our intent to accept produced water at our EE Elliott Salt Water Disposal #1 (D-26-30N-09W, API 30-045-27799) from Burlington Resources producing wells in the areas listed below by township and range. The produced water may be either transported by pipeline or by truck. The produced water is compatible with the water that we currently inject as it is produced from the same formations in the same geographical area. Please review this notice and advise us if we need to do anything further to modify our permit or if you require further information.
