Re: pMESO-301763322
Application to Drill NSL
State Land Sec. 32 #10 Well
2223' FSL & 860' FEL
Sec. 32 (I), T18S, R38E
Lea County, NM

Dear Mr. Stogner:

Saga's geological staff proposed to drill the #10 well at the NSL because the #8 well completed in the Bowers 7 Rivers Pool is in the $\frac{1}{4}$ $\frac{1}{4}$ section and at sometime this SI well could be recompleted/deepened to the Queen. Geological memos previously forwarded to your office. The well was moved to the northwest because of surface obstructions, power line and a Duke Energy gas pipeline. See topographic plats via facsimile and followed by hard copy mail this date.

List of offset mineral interest owners follows on page 2. Letters to this list will be mailed no later than February 20, 2003.

Your prompt consideration of Saga's request for administrative approval to drill the State Land Section 32 #10 well at a NSL is respectfully submitted.

Yours very truly,

A handwritten signature in cursive script that reads "Bonnie Husband".
