Re: Request for exception to Special Rules and Regulations for the Bluit San Andres Associated Pool
The S/2 of Section 7, T-8-S, R-37-E, Roosevelt County, New Mexico.

Dear Mr. Stogner:

This letter is a request for an exception to Rule 2. of the Special Rules and Regulations for the Bluit San Andres Associated Pool.

The Special Rules and Regulations for the Bluit San Andres Associated Pool are as follows:

"RULE 2. (a) A standard oil proration unit shall be 80 acres. A standard gas proration unit shall be 320 acres.
(b) Oil wells shall be located within 150 feet of the center of a quarter-quarter section.
Gas wells shall be located not closer than 990 feet to the quarter section line nor closer than 330 feet to any quarter-quarter section line."

This request concerns the Bluit 7 Federal Com #1 well to be located 1,980' FSL & 660' FEL of Section 7, proposed to be drilled by OGS Operating Company, Inc. in the Bluit San Andres Associated Pool in Roosevelt County, New Mexico.

This well will be drilled to a depth sufficient to test a mid to lower San Andres oil zone, but will likely be completed in a shallower San Andres gas zone. Should the wells be completed as oil wells they will be in compliance with Rule 2. (a) the standard oil proration unit 80 acres, however if they are gas wells an exception Rule 2. (a) will be needed.

The well location is dictated by surface conditions.

This letter is intended as an application for an exception to RULE 2. (a) and (b) of the Special Rules and Regulations for the Bluit-San Andres Associated Pool for the proposed well.

Enclosed is a plat showing the proration unit and the affected leases offsetting these wells.

A copy of this letter has been sent Certified Mail Return Receipt Requested to the affected offset operators (see the attached list).

Please call if you have a question.

Sincerely,
OGS Operating Company, Inc.

Thom O'Brien

April 30, 2004
Please be more specific about the surface conditions of which is preventing you from drilling at a standard gas well location. Also provide a surface plat or to the map that shows these conditions.

Re: Request for exception to Special Rules and Regulations Bluit San Andres Pool
Proposed OGS Operating Company, Inc., Bluit 7 Federal Com #1 well
1,980' FSL & 660' FEL of Section 7, T-8-S, R-37-E, Roosevelt County, New Mexico

Dear Mr. Stogner:

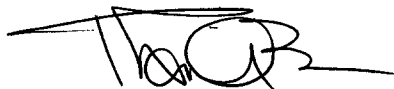

In response to your note concerning the surface conditions which dictate the location of the referenced well and request for exception to Special Rules and Regulations Bluit San Andres Pool.

As you requested attached are copies of a TOPO map and an aerial photo of the location area. There is not much relief in the area of the location. There are sand dunes. My field supervisor that witnessed the staking of this wells tells me that if we move the location west we will encounter some sand dunes.

The proposed location requires less road to be built coming west off of Hwy 262 and has been agreed to by the surface owner and surface lessee.

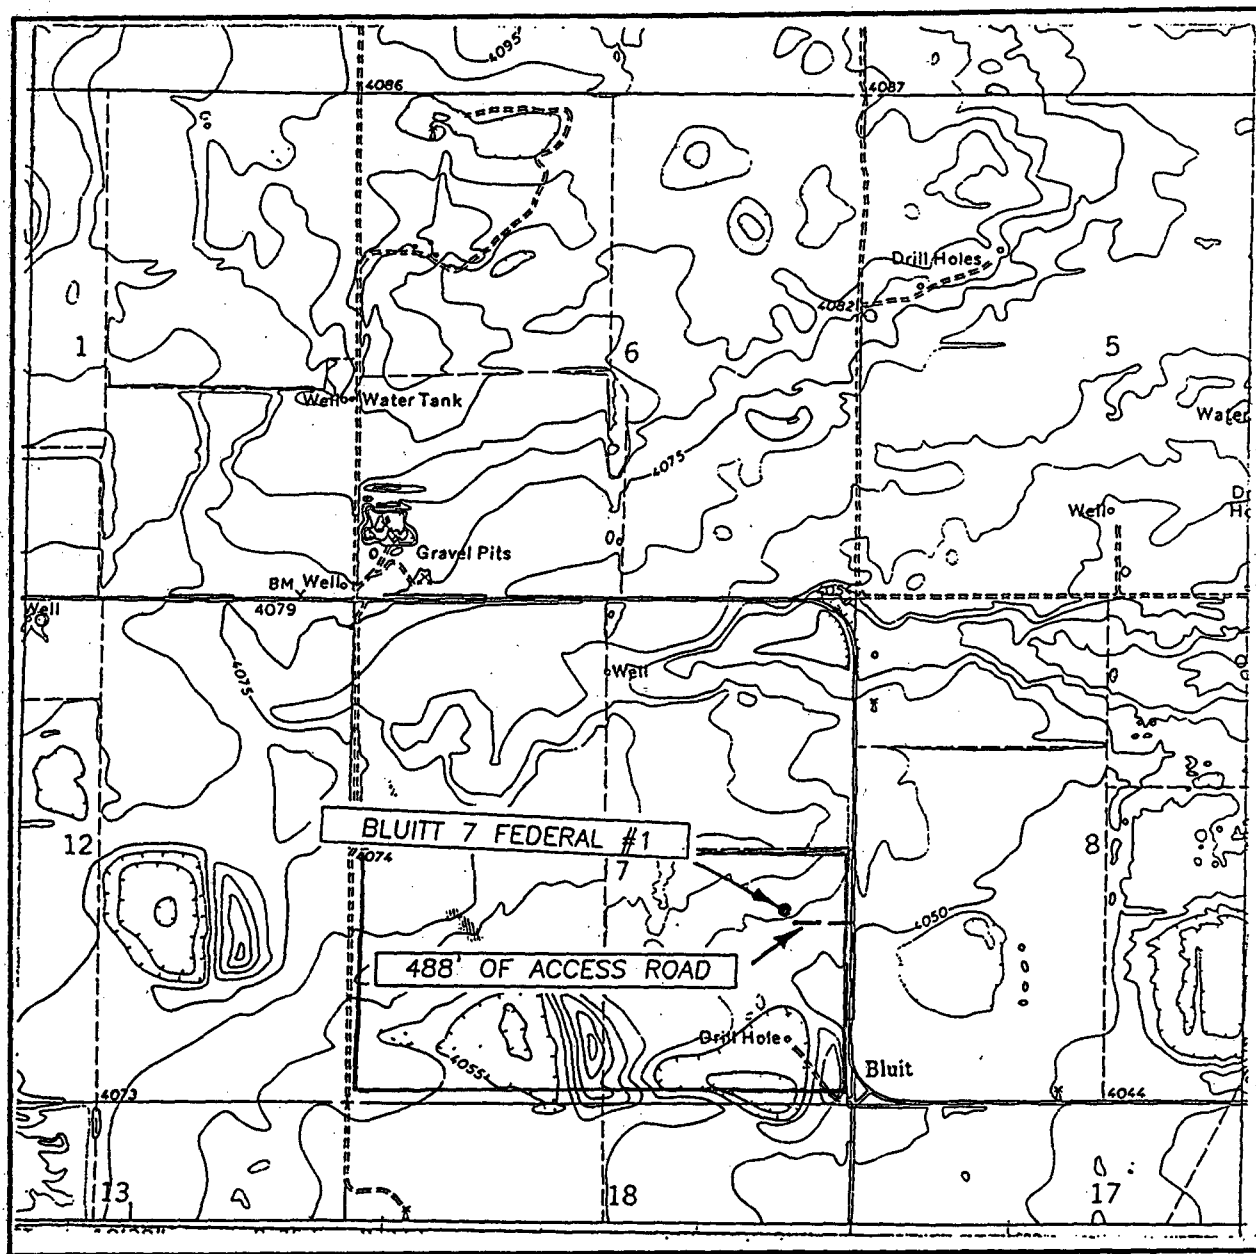

Thank you for your attention to this. Please call if you have a question.

Sincerely,
OGS Operating Company, Inc.

Thom O'Brien, President

Re: OGS Operating Company, Inc., Proposed Bluitt7 Federal #1 well
S/2 Section 7, T-8-S, R-37-E, Roosevelt County, New Mexico

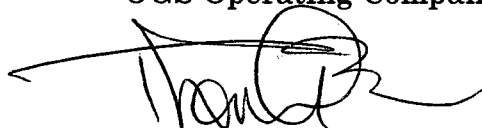

Gentlemen:

Please refer to my letter dated April 22, 2004 in which I requested an exception to Rule 2. (a) and (b) of the special rules and regulations of the Bluitt-San Andres Associated Pool for the referenced well.

In connection with my request, attached are copies of all of the "Return Receipts" for the copies of that letter which I sent to the affected offset Operators

Please call if you have a question.

Sincerely,
OGS Operating Company, Inc.
