Please provide me a detailed survey plat of this well's staked location with particular attention given the distances to the nearest Section and quarter-quarter section lines. Thank you.

To date I have not received a reply to my e-mail of May 26th requesting additional support data. I am just sending a reminder. Thank you.

Mike: Thanks for asking. I spoke with Pogo late last week, and in order to accurately locate the well, they have to survey basically the entire section. That is being done as we speak, and when the survey is done I will submit a **correct** C-102. As you surmised, the well could be in either Lot 3 or Lot 4.
