Re: Commingling Order PLC-207-A

Gentlemen:

Marbob Energy Corporation has been advised by the State Land Office that our centralized tank battery located in the NW/4 NW/4 of Section 2, Township 18 South, Range 27 East was not compliant with current surface use regulations. Marbob management directed that the situation be brought into compliance.

Therefore, Marbob Energy Corporation respectfully requests that NMOCD accept this letter as an Application to modify or amend existing Commingling Order PLC-207-A. Marbob proposes to no longer surface commingle production from two or more different lease numbers. Result would be as follows:

MJ State Lease (E-5461)

MJ State No. 1 (API #30-015-32071) and MJ State No. 2 (API #30-015-32179) would utilize the existing tank battery located in the NW/4 NW/4 of Section 2-T18S-R27E under PLC-207-A, but would no longer be commingled.

BM State Lease (B-8814)

BM State No. 1 (API #30-015-32899) will utilize a new tank battery to be constructed on the existing wellpad in the NE/4 SW/4 of Section 2-T18S-R27E and would no longer be commingled.

SB State Lease (B-7244)

SB State No. 1 (API #30-015-32218) will utilize a new tank battery to be constructed next to the SB State No. 1 wellpad in the SW/4 NW/4 of Section 2-T18S-R27E.

2004 JUN 31 PM 3:32

TDF State Lease (B-7244)

TDF State No. 1 (API #30-015-32231) and TDF State No. 2 (API #30-015-32900) would be surface commingled at the SB State tank battery and would comply with the same terms set out in PLC-207-A.

Furthermore, Marbob Energy requests approval to surface commingle production from our NMBP State lease (B-7244) with that from the SB State lease (B-7244) and the TDF State lease (B-7244). As you may be aware, these leases have the same New Mexico Oil and Gas Lease Number, but due to slight differences in ownership, are considered different leases. Each lease would have separate production equipment so as to measure production prior to combining crude oil in a common storage tank. Each lease would have separate gas meters so that natural gas would not be commingled. A diagram of the proposed tank battery is enclosed for your review. No loss of value would occur if production was commingled. All interest owners have been notified of this Application via Certified Mail. Proof of notification is also enclosed.

Because of the complexity of the Application, please do not hesitate to contact me should you need further information. I am willing to travel to Santa Fe for a meeting should it become necessary.

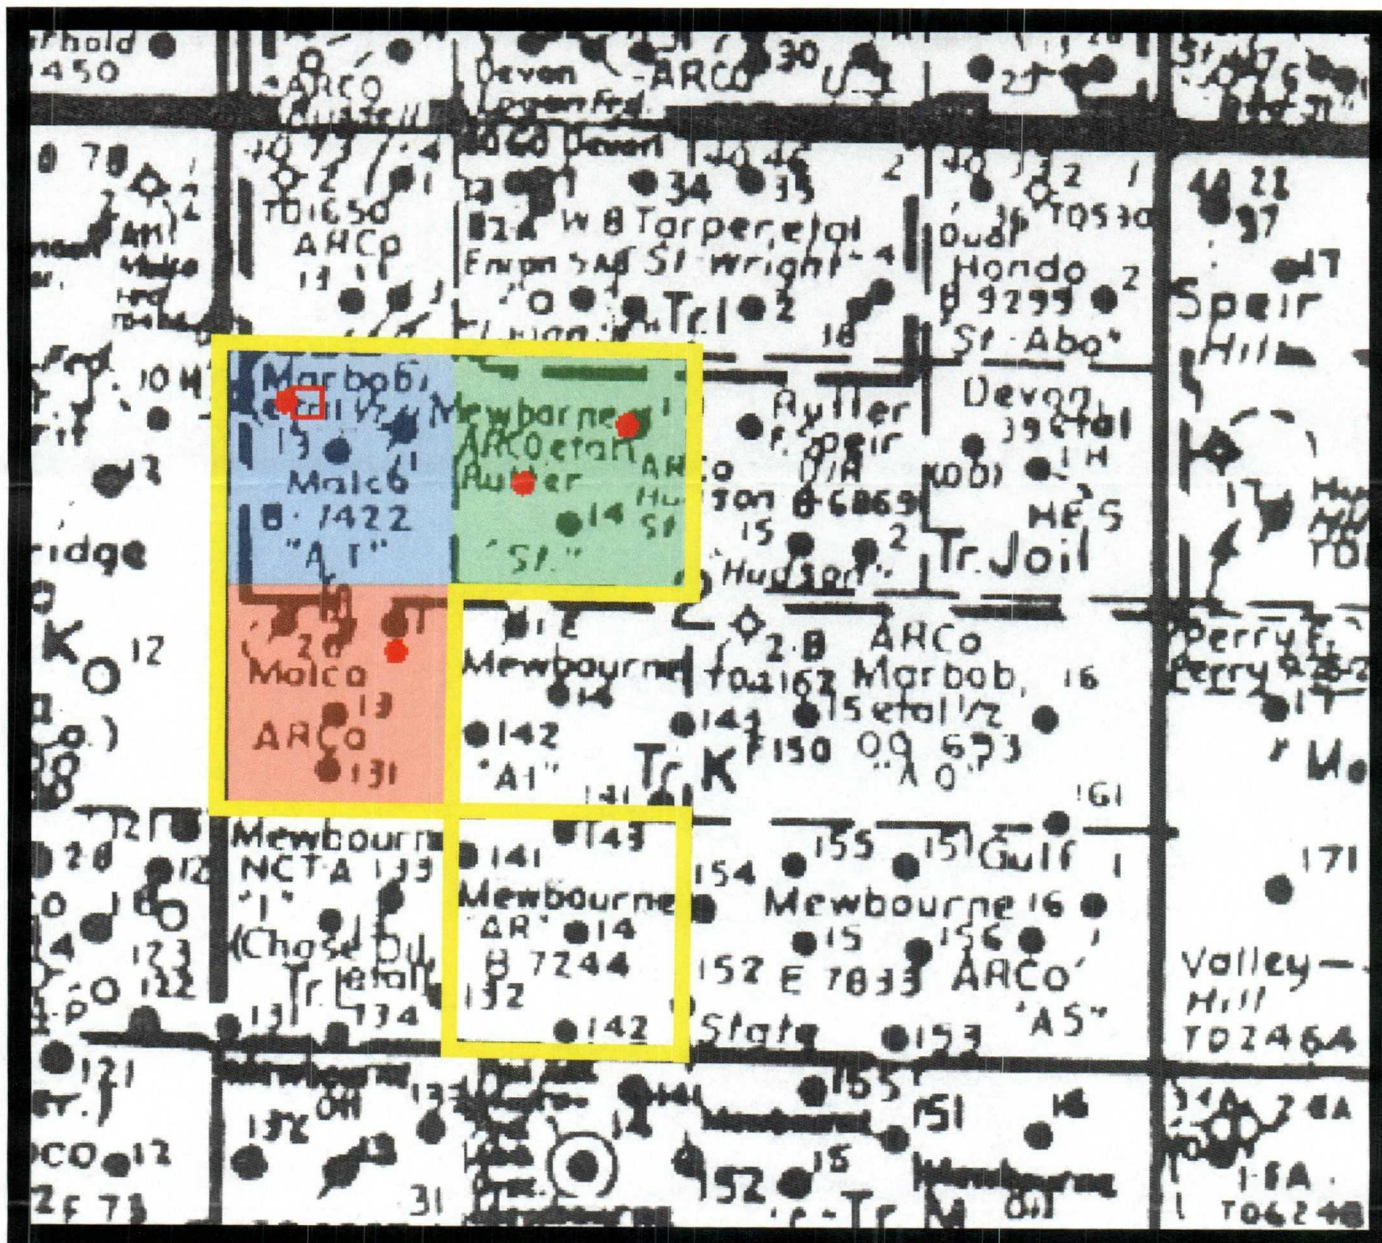

Thank you for your consideration of this Application. Your efforts will be greatly appreciated.

Sincerely,

Dean Chumbley
