**Subject:** Draft NSL Order for 11th and 12th Well (Second Application)

Roy,

Attached is a proposed draft order for the 11th and 12th NSL wells to be sent to you shortly by David Stewart. Both of these wells will also be on the map Alan sends to you. If you can use this draft order, please feel free to do so.

<<2004 OCD NSL Order 2.doc>>

Thanks,  
Danny

August \_\_\_\_, 2004

**OXY USA Inc.**  
**P. O. Box 50250**  
**Midland, Texas 79710-0250**  
**Attention: David Stewart**  
david\_stewart@oxy.com

**Administrative Order NSL-\_\_\_\_\_**

Dear Mr. Stewart:

Reference is made to the following: (i) your application submitted to the New Mexico Oil Conservation Division ("Division") on July \_\_, 2004 (*administrative application reference No. \_\_\_\_\_*); and (ii) the records of the Division in Santa Fe, including the files in Division Cases No. 8190 and 11497 and Division Administrative Orders NSL-3966(SD), as amended, NSL-3688(SD), NSL-4762(SD), and NSL-4873(SD): all concerning OXY USA, Inc.'s ("OXY") request for eleven (11) unorthodox Bravo Dome carbon dioxide gas (CO<sub>2</sub>) well locations all within existing standard 640-acre, more or less, gas spacing and proration units for the Bravo Dome Carbon Dioxide (640-acre) Gas Pool (96010) within its Bravo Dome Carbon Dioxide Gas Unit (BDCDGU), Union and Harding Counties, New Mexico:

(a) all of Section 18, Township 22 North, Range 34 East, NMPM, comprising 640 acres, which is currently dedicated to the BDCDGU "2234" Well No. 181 (**API No. 30-059-20338**), located at a standard CO<sub>2</sub> gas well location 1961 feet from the North line and 1979 feet from the East line (Unit G) of said Section 18, is to be simultaneously dedicated to said Well No. 181 and to the proposed **BDCDGU "2234" Well No. 182 (API No. 30-059-20454)** to be drilled at an unorthodox CO<sub>2</sub> gas well location 330 feet from the North line and 990 feet from the West line (Unit D) of said Section 18;

(b) all of Section 35, Township 22 North, Range 32 East, NMPM, comprising 640 acres, which is currently dedicated to the BDCDGU "2232" Well No. 351 (**API No. 30-059-20311**), located at a standard CO<sub>2</sub> gas well location 2000 feet from the North line and 2152 feet from the West line (Unit F) of said Section 35, is to be simultaneously

Administrative Order NSL-\_\_\_\_\_  
OXY USA Inc.  
August \_\_\_, 2004  
Page 2

---

dedicated to said Well No. 351 and to the proposed BDCDGU "2232"  
**Well No. 352 (API No. 30-059-20460)** to be drilled at an unorthodox  
CO<sub>2</sub> gas well location 1664 feet from the South line and 2578 feet from  
the East line (Unit J) of said Section 35;

From the information provided by the applicant, the royalty interests in all of the affected off-setting acreage to the proposed unorthodox locations have either been notified by certified mail or have ratified the Bravo Dome Carbon Dioxide Gas Unit (BDCDGU) Agreement.

By authority granted me under the provisions of Rule 5 of the "*Special Rules and Regulations for the Bravo Dome 640-Acre Area*," as promulgated by Division Order No. R-7556, dated June 19, 1984, as amended by Division Order No. R-7556-A, dated June 10, 1987, Decretory Paragraph No. (4) of Division Order No. R-10576, and Division Rule 104.F(2) the above-described BDCDGU "2234" Well No. 182 and BDCDGU "2232" Well No. 352, both to be drilled at unorthodox CO<sub>2</sub> gas well locations are hereby approved.

Jurisdiction of this matter shall be further retained for the entry of any such subsequent orders, as the Division may deem necessary.

Sincerely,

Mark Fesmire  
Director

**Subject:** NSL Notices for Well No. 2232-352J

Well No. 2232-352J Well No. 2232-352J Well No. 2232-352J

Group 1 of ...

Group 2 of ...

Group 3 of ...

Roy:

Further to my letter of July 14, 2004 (transmitting you a map of the 12 ✓  
NSL locations in Oxy's proposed 2004 drilling program), attached are the  
NSL Notice Letters to the affected lessors to our Well No. 2232-352J, as  
well as copies of the certified mail receipts we employed. Each Notice  
is dated July 16, 2004, and ALL were mailed on that date. There are a  
total of 22 parties/entities that were notified, utilizing 18 separate  
Notice Letters. The difference was that some lessors (such as Trusts  
with the same Trustee at the same address) were combined on a single  
Notice.

The 18 Notices are conveniently broken into three (3) groups of 6, along  
with the appropriate certified mail receipts. Each of these 3 separate  
groups are attached below.

If you also need me to furnish you with 'hard-copies' of any/all of this  
material (or anything additional), please just let me know and I will  
have it sent to you ASAP. Otherwise, I will assume that these  
versions-which you can print if you so desire-will be sufficient.

I will appreciate your acknowledging your receipt of these items.

If you have any questions, or need further information relating to this  
NSL matter and/or the attached Notices, please feel free contact me to  
discuss.

Alan J. Schwartz  
Land Negotiator  
OXY USA INC.

Re: Application for Unorthodox/Non-Standard Well Location  
Bravo Dome Carbon Dioxide Gas Unit  
Union County, New Mexico

**CERTIFIED MAIL - RETURN RECEIPT REQUESTED**

No. 7003 1680 0000 1720 7563

Marguerite Annie Poling  
Allen Poling Corporation  
44 Trampers Lane  
Clayton, NM 88415-7229

Dear Ms. Poling:

OXY USA Inc., as the current Operator of the Bravo Dome Carbon Dioxide Gas Unit ("Unit"), plans to drill additional carbon dioxide wells in the area. For the following proposed well:

Well No. 2232-352J

you own royalty interests in nearby lands. Your royalty originated in an Oil and Gas Lease that was granted to Amoco Production Company (as original Lessee); however, the lease is not committed to the Unit due to a prior election to not ratify the Unit.

The well listed above is an additional well to be drilled within a 640-acre pooled unit (which includes land in Section 35, T-22-N, R-32-E covered by your lease) as allowed by the lease. All royalty from a carbon dioxide well on such a pooled unit will be apportioned on a pooled (640-acre) unit net acreage basis, as provided by your lease.

As the proposed location is unorthodox/non-standard, you are deemed an 'affected party' requiring notice of our drilling plans. Our application for the appropriate permit has been made to the New Mexico Oil Conservation Division ("NMOCD"). For your information, enclosed is a copy of our application and a plat showing the well's location. In the event you have an objection to our application for this well, it must be filed in writing with the NMOCD within twenty (20) days pursuant to its Rules. Otherwise, you do not need to take any action.

Yours very truly,

Enclosure

All royalty from a carbon dioxide well on such a pooled unit will be apportioned on a pooled (640-acre) unit net acreage basis, as provided by your lease.

As the proposed location is unorthodox/non-standard, you are deemed an 'affected party' requiring notice of our drilling plans. Our application for the appropriate permit has been made to the New Mexico Oil Conservation Division ("NMOCD"). For your information, enclosed is a copy of our application and a plat showing the well's location. In the event you have an objection to our application for this well, it must be filed in writing with the NMOCD within twenty (20) days pursuant to its Rules. Otherwise, you do not need to take any action.

Yours very truly,

Enclosure

**CERTIFIED MAIL - RETURN RECEIPT REQUESTED**  
No. 7003 1680 0000 1720 7679

Stephanie Whitney  
13 Musick Road  
Clayton, NM 88415-4701

Dear Ms. Whitney:

OXY USA Inc., as the current Operator of the Bravo Dome Carbon Dioxide Gas Unit ("Unit"), plans to drill additional carbon dioxide wells in the area. For the following proposed well:

Well No. 2232-352J

you own royalty interests in nearby lands. Your royalty originated in an Oil and Gas Lease that was granted to Amoco Production Company (as original Lessee); however, the lease is not committed to the Unit due to a prior election to not ratify the Unit.

The well listed above is an additional well to be drilled within a 640-acre pooled unit (which includes land in Section 35, T-22-N, R-32-E covered by your lease) as allowed by the lease. All royalty from a carbon dioxide well on such a pooled unit will be apportioned on a pooled (640-acre) unit net acreage basis, as provided by your lease.

As the proposed location is unorthodox/non-standard, you are deemed an 'affected party' requiring notice of our drilling plans. Our application for the appropriate permit has been made to the New Mexico Oil Conservation Division ("NMOCD"). For your information, enclosed is a copy of our application and a plat showing the well's location. In the event you have an objection to our application for this well, it must be filed in writing with the NMOCD within twenty (20) days pursuant to its Rules. Otherwise, you do not need to take any action.

Yours very truly,

Enclosure

I have spoken with Mike about these and it looks like they will be out this week. The management in this place changes their priorities as often as we change our socks and your application got caught up in the wind change. It's fun working for lawyers but thank god [REDACTED] is gone.....

Roy,  
The first rig will move into the Dome on Monday or Tuesday. The second rig should be here a week after. Have you heard anything from Mike on the outstanding NSL applications?

Thanks,  
Danny

Roy,  
Per our telcon earlier this week, were you able to find out the current status of our NSL application for BDU 2232-352J? This application was received by the OCD on 7/23/04 and the 20 day notice window expired on 8/12/04.

Attached is a recap of the twelve NLS applications we've made during our 2004 drilling program. NMOCD approval has been received on 10 of these. The two remaining applications are:

2232-352J - received by OCD on 7/23/04.  
2234-182D - application resubmitted to OCD on 8/20/04 after Mr. Gallegos/Poole rescinded their objection to original application.

<<NSL Summary.XLS>>  
We appreciate you checking into this matter for us.  
Thanks,

9/13/2004

Danny
