Re: Administrative Order PMX-223
North Square Lake Unit Wells 41, 42, 43, 60, and 61

Dear Mr. Sirgo:

Administrative Order No PMX-223 granted authority to inject water into five wells in the North Square Lake Unit Pressure Maintenance Project. That order specified that injection authority would terminate on October 17, 2004, if the operator has not commenced injection operations into these wells.

For the reasons outlined in your email communication, you are hereby granted a one-year extension of the deadline in which to begin injection operations into these wells.

The injection authority for these wells shall expire on October 17, 2005, if the operator has not commenced injection operations.

Sincerely,

William V. Jones, P.E.
Engineer
