Re: Application to Pool / Lease (Surface) Commingle Gas, Oil, & Water Production

Dear Mr. Jones:

ChevronTexaco Exploration & Production Company, a division of Chevron U.S.A. Inc., respectfully requests administrative approval to Pool Lease (surface) commingle the T. Anderson Battery, with the Theodore Anderson Battery.

The T. Anderson Battery is in deteriorating condition, and the well # 5 production is the only production going to that battery. Pending OCD approval, the battery will be abandoned, and a flowline will be run from the T. Anderson # 5 to the Theodore Anderson Battery. The Theodore Anderson wells # 10, # 12, and # 14, are currently the only wells included in that battery. Well locations and identification information is enclosed as an attachment for each of the wells that will be included in this Lease Commingle.

Prior to lease commingling, ChevronTexaco will install a metering separator, and will continuously meter the oil, water, and gas production from the T. Anderson # 5 well. The facility schematic diagram, is enclosed as an attachment was clarification.

ChevronTexaco Exploration & Production Company is the operator of the T. Anderson # 5, and the Theodore Anderson # 10, # 12, and # 14, with a 100% ownership. Attached in support of this request is a lease plat, well test, production comparison, and the royalty interest list and their respective percentages, and a copy of the letter send to the RIO's.

Commingling will not reduce the actual commercial value of the production from these leases. For your convenience, I have enclosed a stamped self-addressed envelope, so your decision for this Lease Surface Commingle can be sent directly to me for distribution to our Central Records, and Field offices. If you have any questions concerning this application, please contact me, at (915) 687-7384.

Sincerely,

NMOCD Pool / Lease Commingling Request
Sections 8 and 17, T20S, R37E
Lea County, New Mexico

Re: Notice of Intent to Pool / Lease (Surface) Commingle Gas, Oil, & Water Production

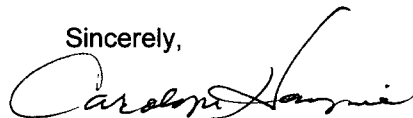

Royalty Interest Owners:

ChevronTexaco Exploration & Production Company, formerly Chevron U.S.A. Production Company, is requesting NMOCD approval to Pool Lease Commingle the production from the T. Anderson Battery and the Theodore Anderson Battery.

The T. Anderson Battery is in deteriorating condition, and the well # 5 is the only well. Pending OCD approval, the battery will be abandoned, and a flowline will be run from the T. Anderson # 5 to the Theodore Anderson Battery. Also, prior to lease commingling, ChevronTexaco will install a metering separator, and will continuously meter the oil, water, and gas production from the T. Anderson # 5 well, so the commingle will not reduce the actual commercial value of the production from these leases.

ChevronTexaco Exploration & Production Company is the operator of the all of these wells with a 100% ownership. If you have any questions, please contact me at 915-687-7384. Any objections from the parties of record to this Pool Lease Commingle should be sent within 20 days, to the New Mexico Oil Conservation Division; 1220 South St. Francis Drive; Santa Fe, NM 87504.

Sincerely,

Carolyn Haynie
