Drinkard and Wantz Abo

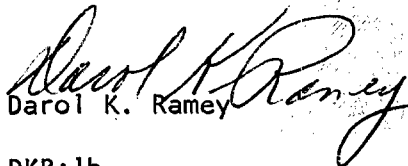

Gentlemen:

We have received the subject order and did not notice what appears to us to be an error until we were setting up our records for reporting the production. We believe that the percentages set up for assignment of allowable and allocation of production have been reversed. We believe the order should show - Upper Pool: 40% and Lower Pool: 60%.

We will appreciate your review of this matter, and if appropriate, issuance of a correction. If you need additional information, please advise.

Very truly yours,

IMPERIAL-AMERICAN MANAGEMENT COMPANY
