Hobbs, New Mexico 88240

Administrative Order No. DHC-140
Dora E. Meyers Well No. 1, Unit L,
Section 33, Township 16 South,
Range 37 East, NMPM, Lovington
Paddock and Lovington Tubb

Gentlemen:

Reference is made to your recent application for an exception to Rule 303-A of the Commission Rules and Regulations for the subject well to permit the removal of the down-hole separation equipment and to commingle the production from both pools in the well-bore.

It appearing that the subject well qualifies for approval for such exception pursuant to the provisions of Rule 303-C, and that reservoir damage or waste will not result from such down-hole commingling, and correlative rights will not be violated thereby, you are hereby authorized to commingle the production as described above.

In accordance with the provisions of Rule 303-C, total commingled oil production from the subject well shall not exceed 60 barrels per day, and total water production from the well shall not exceed 120 barrels per day. The maximum amount of gas which may be produced daily from the well shall be determined by multiplying 2000 by top unit allowable for the Lovington Tubb Pool. This authorization to commingle shall not be construed as a permit to vent gas, as stated by the application.

Assignment of allowable to the well and allocation of production from the well shall be on the following basis:

Getty Oil Company

-2-

Upper Pool: 8%
Lower Pool: 92%

Pursuant to Rule 303-C 5, the commingling authority granted by this order may be rescinded by the Secretary-Director if, in his opinion, conservation is not being best served by such commingling.

Very truly yours,

A handwritten signature in dark ink, appearing to read 'A. L. Porter, Jr.', with a stylized flourish at the end.

A. L. PORTER, Jr.
