AMENDED  
*ADMINISTRATIVE ORDER DHC-192*

John H. Hendrix Corporation  
223 West Wall  
Suite 525  
Midland, Texas 79701

Attention: Ronnie H. Westbrook

*Western Federal No. 1  
Unit D, Section 5, Township 23 South, Range 38 East, NMPM, Lea  
County, New Mexico.  
South Brunson Drinkard Abo, Blinebry and Tubb Oil & Gas Pools*

Dear Mr. Westbrook:

Reference is made to your recent application for an amendment to Administrative Order No. DHC-192, dated May 5, 1976, which authorized the downhole commingling of production from the South Brunson Drinkard Abo and Blinebry Oil & Gas pools in the wellbore, to permit the addition at a third zone of production to be commingled in the wellbore.

It appearing that the subject well qualifies for approval for such amendment pursuant to the provisions of Rule 303-C, and that reservoir damage or waste will not result from such downhole commingling, and correlative rights will not be violated thereby, you are hereby authorized to commingle the production as described above.

In accordance with the provisions of Rule 303-C-4., total commingled oil production from the subject well shall not exceed 40 barrels per day, and total water production shall not exceed 80 barrels per day. The maximum amount of gas which may be produced daily from the well shall be determined by multiplying 4000 by the top unit allowable for the Blinebry Oil & Gas Pool.

Administrative Order DHC-192, AMENDED  
John H. Hendrix Corporation  
March 11, 1992  
Page 2

Assignment of allowable to the well and allocation of production from the well shall be on the following basis:

Blinebry Pool:	Oil	50%,	Gas	33%
Tubb Pool:	Oil	0%,	Gas	34%
Drinkard Pool:	Oil	50%,	Gas	33%

Pursuant to Rule 303-C-5, the commingling authority granted by the order may be rescinded by the Division Director if, in his opinion, conservation is not being best served by such commingling.

Approved at Santa Fe, New Mexico on this 10th day of March, 1992.
