Gulf Oil Exploration & Production Co.
P. O. Box 670
Hobbs, New Mexico 88240

Attention: R. C. Anderson

Administrative Order No. DHC-311
H. T. Mattern Well No. 14,
Unit C, Section 7, Township 22
South, Range 37 East, NMPM, Lea
County, New Mexico, Tubb Oil
and Gas Pool and Drinkard Pool

Gentlemen:

Reference is made to your recent application for an exception to Rule 303-A of the Division Rules and Regulations for the subject well to permit the commingling of the production from both pools in the well-bore.

It appearing that the subject well qualifies for approval for such exception pursuant to the provisions of Rule 303-C, and that reservoir damage or waste will not result from such downhole commingling, and correlative rights will not be violated thereby, you are hereby authorized to commingle the production as described above.

In accordance with the provisions of Rule 303-C, total commingled oil production from the subject well shall not exceed 40 barrels per day, and total water production from the well shall not exceed 80 barrels per day. The maximum amount of gas which may be produced daily from the well shall be determined by multiplying 2000 by top unit allowable for the Tubb Oil and Gas Pool.

Assignment of allowable to the well and allocation of production from the well shall be on the following basis:

Upper Pool: Oil 64%, Gas 40%
Lower Pool: Oil 36%, Gas 60%

Pursuant to Rule 303-C 5, the commingling authority granted

by this order may be rescinded by the Division Director if, in his opinion, conservation is not being best served by such commingling.

Very truly yours,

A handwritten signature in dark ink, appearing to read "Joe D. Ramey", is written over the typed name and title.

JOE D. RAMEY
Division Director
