Dear Mr. Howard:

Per your letter dated October 21, 1982, we are unable to amend this application administratively to allow daily water production of 200 barrels. This will need to be brought before an Oil Conservation Division examiner.

If you have any questions concerning this matter, please contact me.

Sincerely,

Dear Mr. Ramey:

Tesoro Petroleum Corporation is in receipt of the subject administrative order No. DHC-374. This order allows a commingle oil production, from the subject well, of 20 barrels per day and total water production not to exceed 40 barrels per day. Recent well tests indicate that daily oil production is 15 barrels per day and 175 barrels of water per day.

In order to efficiently produce the subject well it is requested that administrative order No. DHC-374 be ammended to allow daily water production of 200 barrels.

For your information, attached is correspondence outlining the original commingling request.

Very truly yours,

Joe R. Howard
