Hobbs, New Mexico 88240

Dear Sirs:

This letter serves as our January 2005 written compliance report. The following wells have been returned to production: Denton #1 (API #3002525495) on November 4<sup>th</sup> and Lea Unit #9 (API #3002502432) on December 8<sup>th</sup>. We also TA'd Tamano #602 (API #3001526286) in November. This well was on a separate shut-in list. We are looking at Bone Springs recompletions in the remaining 3 wells in the Lea Unit. We are still evaluating the 8 J. M. Denton wells and Hamon A Fed Com well.

Sincerely,

Scott McGraw  
Operations Manager
