Jalmat Tansill Yates 7 Rivers Gas Pool (79240)

Lea County, NM

Dear Mr. Stogner,

The above referenced well, the Jack B-30 #2 was drilled and completed as a dual completion (Order No. MC-2431) in the Jalmat gas pool and the Langlie Mattix oil pool in March 1978. There was a hearing for this well February 22, 1978 for approval of an unorthodox location and a non-standard 160 acre proration unit (Order No. R-5658). The Jack B-30 #2 was simultaneously dedicated to the Jack B-30 #1(Unit Letter H) in the same 160-acre proration unit, the NW ¼ of Section 30 (see original C-102).

Conoco was going to plug the Jack B-30 #1 in October 1999. Upon notification of plugging, Doyle Hartman asked to take this well over. The C-104 transferring ownership to Doyle Hartman was approved March 30, 2000 (see attached). As evidenced by attached production graphs, Conoco's Jack B-30 #2 is currently an active well in both the Jalmat Yates 7 Rivers Gas pool (79240) and the Langlie Mattix 7 Rvrs Grayburg Oil pool (37240). The latest test in the Langlie Mattix pool is dated 9-18-00 and was 2 BOPD, 6 BWPD, and 7 MCFD. In the Jalmat Yates Gas pool the latest test is dated 9-18-00 and was 0 BOPD, 0 BWPD, and 7 MCFD. Conoco would like to amend Order No.R-5658 from a 160 acre non-standard proration unit to a 40-acre non-standard proration unit for the Jalmat Tansill Yates 7 Rvrs gas pool (see attached C-102). Doyle Hartman's Jack B-30 #1 has been reclassified to an oil well with a standard 40 acre proration unit.

The offset operators in Section 30 and Section 19 to the north are: Oxy, Gruy, Doyle Hartman, Texaco, Arch Petroleum, and Chevron. A copy of this application has been sent to the above listed parties on this the 23rd day of October 2000.

l'apologize to all parties for the previous application dated October 17, 2000. There is no excuse / for the inaccuracy of that request. If you have any additional questions regarding this request please contact me at (915) 686-5798.

Sincerely.

Regulatory Agent – Conoco
