In reviewing your application for the three non-standard coal gas spacing units, you did not reference or identify any of the wells to be drilled or recompleted in which these units would eventually be dedicated. Also you did not provide me with a list of the person(s) notified of this application.

Thanks for your response. I apologize for not referencing the wells to be drilled in my application. ConocoPhillips will drill the 32-7 #247 in Block K, the 32-7 #248 in Block L and the 32-7 #249 in Block M.

Under a letter dated December 6, 2004, we notified Burlington Resources Oil & Gas of our application. I mailed you a copy of this letter along with a plat showing the area around the spacing units. However, when I returned from vacation this morning, the copy mailed to your attention had been returned due to an incorrect address (it was sent by my secretary to 2040 South Pacheco, Santa Fe, NM). This morning I am resending you the copy of the letter and the plat to your attention at 1220 South St. Francis Drive, Santa Fe, New Mexico 87505.

Please let me know if I need to take any other action regarding this application.

Regards,

Jim Penney
