DEC 27 2004

Oil Conservation Division  
New Mexico State Office  
Santa Fe, NM 87505

REQUEST FOR ADMINISTRATIVE APPROVAL FOR NONSTANDARD LOCATION FOR  
XTO ENERGY INC.

DAVIDSON GAS COM G 2

1775' FSL & 340' FEL SEC. 21, T. 28 N., R. 10 W., SAN JUAN COUNTY, NM

I. The well is on BLM surface and on BLM oil and gas lease (NMSF-077383A). The proposed location is nonstandard for the Otero Chacra and Basin Dakota due to topography. A standard location must be at least 660' from the quarter line. This well is staked 320' further east than is standard. (Closest standard location would be 1775' FSL and 660' FEL.) The APD is attached as EXHIBIT A.

II. A C-102 showing the well location and pro ration unit (SE4 for the Otero Chacra and E2 for the Basin Dakota) is attached (EXHIBIT B). Relevant parts of the lease (1,280 acres) are shown as solid lines on the attached (EXHIBIT C) copy of the Bloomfield USGS topo map.

The well encroaches on the SW4 Section 22, but no Chacra acreage has been dedicated to date in the SW4 Section 22. Chacra acreage dedications (quarter sections) are shown on Exhibit D.

The well encroaches on the S2 Section 22 Basin Dakota gas spacing unit which is dedicated to Questar's existing Kutz Canyon #1 well (790' FSL & 790' FWL 22-28n-10w) which is 1,499' southeast. Basin Dakota acreage dedications (half sections) are shown on EXHIBIT E.

West quarter corner of Section 22 is 929' north-northeast. Thus, well does not encroach on NW4 Section 22.

III. According to NM Oil Conservation Division records reviewed on December 19, 2004; the closest existing or planned Chacra well is XTO's Davidson Gas Com H 1 E well which is 3,291' northeast at 790' FNL & 1520' FWL 22-28n-10w. EXHIBIT F shows the proposed well site, Chacra gas dedicated spacing units, and the one Chacra well (circled on map) within those dedications.

According to NM Oil Conservation Division records reviewed on December 19, 2004; the closest existing or planned Dakota well is Questar's existing Kutz Canyon #1 well (790' FSL & 790' FWL 22-28n-10w) which is 1,499' southeast. EXHIBIT G shows the proposed well, Dakota gas dedicated spacing units, and Dakota wells (circled on map) in those dedications.

Registered letters were sent on December 21, 2004 to all of the offset interest owners. Copies of the postal receipts and letters are attached.

IV. A copy of the USGS map is attached (EXHIBIT H). The proposed well site is marked. Pro ration unit (dashed outline) for the Otero Chacra gas is the 160.00 acre southeast quarter of Section 21, Township 28 North, Range 10 West, San Juan County, NM. Pro ration unit (solid outline) for the Basin Dakota gas is the 320.00 acre east half of Section 21, Township 28 North, Range 10 West, San Juan County, NM.

V. The nonstandard location is due to topography. The undrained portion of the drilling window is in a badland area which is also habitat for two BLM species of concern - Brack's cactus and Aztec gilia. The well is staked (see EXHIBIT I) southeast of the badlands and beside a road and pipeline.

VI. No archaeology sites were found.

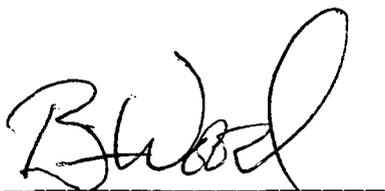

VII. See item V. above and attached map for a description of the surface conditions.

VIII. Directional drilling is not feasible because it is not cost effective.

IX. I hereby certify notice (see attached EXHIBIT J) has been sent to the following lessees, lessors, operators of existing spacing units, or owners of undrilled leases which adjoin the applicant's spacing unit on one or more of the two sides or the single closest corner to the proposed well and that the information is current and correct.

 PROVIDING PERMITS for LAND USERS  
 17 Arano Loop, Santa Fe, New Mexico 87508 (505) 466-8120

December 20, 2004

Ashdla LLC  
 245 Park Ave., 2nd Floor  
 New York, NY 10167

As required by New Mexico Oil Conservation Division Rules, I am notifying you of the following nonstandard location (NSL) for a well. This letter is a notice only. No action is needed unless you have questions or objections.

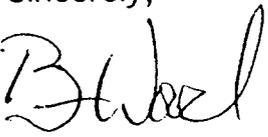

XTO Energy Inc. is applying to drill its Davidson Gas Com G 2 gas well. The minimum state distance for such a gas well is 660' from a quarter section line. The proposed well is 320' further east than is standard. Thus, it is a nonstandard location. The NSL is due to topography. It is 340' from the closest lease boundary.

Well Name: Davidson Gas Com G 2      Total Depth: 6,950'  
Proposed NSL Producing Zones: Otero Chacra & Basin Dakota  
NSL Acreage Dedication: 160 ac. (SE4 to Chacra) & 320 ac. (E2 to Dakota)  
Location: 1775' FSL & 340' FEL Sec. 21, T. 28 N., R. 10 W.,  
 San Juan County, NM on Federal lease NMSF-077383A  
Approximate Location: ≈8 air miles southeast of Bloomfield, NM  
Applicant Name: XTO Energy Inc. (505) 324-1090  
Applicant's Address: 2700 Farmington Blvd, Bldg. K-1, Farmington, NM 87401

Submittal Information: Application for a nonstandard location will be filed with the NM Oil Conservation Division. If they determine the application complies with the applicable regulations, then it will be approved. The New Mexico Oil Conservation Division address is 1220 South St. Francis Dr. Santa

ber is (505) 476-3440.

As required by New Mexico Oil Conservation Division Rules, I am notifying you of the following nonstandard location (NSL) for a well. This letter is a notice only. No action is needed unless you have questions or objections.

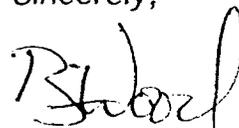

XTO Energy Inc. is applying to drill its Davidson Gas Com G 2 gas well. The minimum state distance for such a gas well is 660' from a quarter section line. The proposed well is 320' further east than is standard. Thus, it is a nonstandard location. The NSL is due to topography. It is 340' from the closest lease boundary.

Well Name: Davidson Gas Com G 2      Total Depth: 6,950'  
Proposed NSL Producing Zones: Otero Chacra & Basin Dakota  
NSL Acreage Dedication: 160 ac. (SE4 to Chacra) & 320 ac. (E2 to Dakota)  
Location: 1775' FSL & 340' FEL Sec. 21, T. 28 N., R. 10 W.,  
 San Juan County, NM on Federal lease NMSF-077383A  
Approximate Location: ≈8 air miles southeast of Bloomfield, NM  
Applicant Name: XTO Energy Inc. (505) 324-1090  
Applicant's Address: 2700 Farmington Blvd, Bldg. K-1, Farmington, NM 87401

Submittal Information: Application for a nonstandard location will be filed with the NM Oil Conservation Division. If they determine the application complies with the applicable regulations, then it will be approved. The New Mexico Oil Conservation Division address is 1220 South St. Francis Dr. Santa Fe, NM 87501. The phone number is (505) 476-3440.

Questions.

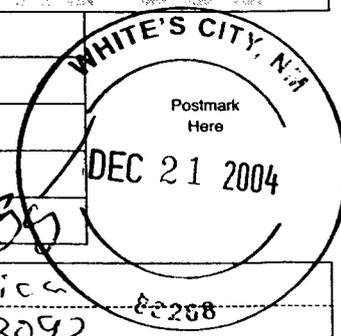

Sincerely,

Brian Wood

December 20, 2004

Ovation Energy LP  
 8713 Airport Freeway, #125  
 N. Richard Hills, TX 76180

As required by New Mexico Oil Conservation Division Rules, I am notifying you of the following nonstandard location (NSL) for a well. This letter is a notice only. No action is needed unless you have questions or objections.

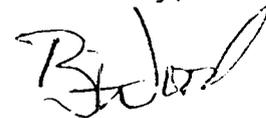

XTO Energy Inc. is applying to drill its Davidson Gas Com G 2 gas well. The minimum state distance for such a gas well is 660' from a quarter section line. The proposed well is 320' further east than is standard. Thus, it is a nonstandard location. The NSL is due to topography. It is 340' from the closest lease boundary.

Well Name: Davidson Gas Com G 2      Total Depth: 6,950'  
Proposed NSL Producing Zones: Otero Chacra & Basin Dakota  
NSL Acreage Dedication: 160 ac. (SE4 to Chacra) & 320 ac. (E2 to Dakota)  
Location: 1775' FSL & 340' FEL Sec. 21, T. 28 N., R. 10 W.,  
 San Juan County, NM on Federal lease NMSF-077383A  
Approximate Location: ≈8 air miles southeast of Bloomfield, NM  
Applicant Name: XTO Energy Inc. (505) 324-1090  
Applicant's Address: 2700 Farmington Blvd, Bldg. K-1, Farmington, NM 87401

Submittal Information: Application for a nonstandard location will be filed with the NM Oil Conservation Division. If they determine the application complies with the applicable regulations, then it will be approved. The New Mexico Oil Conservation Division address is 1220 South St. Francis Dr. Santa Fe, NM 87505. The phone number is (505) 476-3440.

Questions.

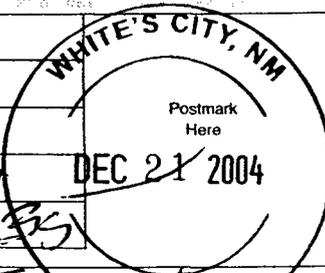

Sincerely,

Brian Wood
