Administrative Order No. DHC-453

Conoco Inc.
P.O. Box 460
726 E. Michigan
Hobbs, NM 88240

Attention: Mark K. Mosley

Re: Lockhart B-13A No. 9
Unit N, Sec. 13, T-21S,
R-37E, Lea County, NM
Wantz Abo and Drinkard
Pools

(30-025-28011)

Gentlemen:

Reference is made to your recent application for an exception to Rule 303-A of the Division Rules and Regulations to permit the subject well to commingle the production from both pools in the wellbore.

It appearing that the subject well qualifies for approval for such exception pursuant to the provisions of Rule 303-C, and that reservoir damage or waste will not result from such downhole commingling, and correlative rights will not be violated thereby, you are hereby authorized to commingle the production as described above.

In accordance with the provisions of Rule 303.C.4., total commingled oil production from the subject well shall not exceed 40 barrels per day, and total water production from the well shall not exceed 80 barrels per day. The maximum amount of gas which may be produced daily from the well shall be determined by multiplying 6000 by top unit allowable for the Wantz Abo Pool.

Assignment of allowable to the well and allocation of production from the well shall be on the following basis:

Drinkard Pool: Oil 30 %, Gas 18 %
Wantz Abo Pool: Oil 70 %, Gas 82 %

Pursuant to Rule 303-C 5, the commingled authority granted by this order may be rescinded by the Division Director if, in his opinion, conservation is not being best served by such commingling.

Very truly yours,

JOE D. RAMEY,
Division Director
