Subject: CBS Operating Corp-North Square Lake Unit - C-108 extensions

Will, We have 2 additional C-108's covering our enhanced project at the North Square Lake Unit, that expire on March 31, 2005 (PMX - 224) & April 12,2005 (PMX-225). We have initiated well work for approved C-108 wells covered under both of these orders, but there is no way with the pace of the oilfield these days we will have completed all the work on all the wells covered by these orders.

I respectfully request an extension of 1 year for these 2 orders to allow us sufficient time to complete all the required well work.

We officially commenced injection into several of the new C-108 wells this month, which is historic considering the journey to get to this point.

We have continued to work on our "clean up" efforts regarding non-compliance & surface remediation.

I would appreciate your consideration of this extension request.
If you need any additional information please do not hesitate to call.

Sincerely, Manny Sirgo
