Attention: George A. Cox**

Telefax No. (817) 870-1671

Administrative Order NSL-4401

Dear Mr. Cox:

Reference is made to the following: (i) your application dated January 11, 2000; and (ii) the records of the New Mexico Oil Conservation Division ("Division") in Santa Fe: all concerning Cross Timbers Operating Company's ("Cross Timbers") request for an unorthodox location within the governing limits of the Angels Peak-Gallup Associated Pool for the temporarily abandoned J. C. Gordon "D" Well No. 3 (API No. 30-045-13044), located 2270 feet from the South line and 1540 feet from the West line (Unit K) of Section 23, Township 27 North, Range 10 West, NMPM, San Juan County, New Mexico.

According to the Division's well records the J. C. Gordon "D" Well No. 3 was initially drilled in 1964 by Pan American Petroleum Corporation and completed in the Basin-Dakota Pool within a standard 320-acre stand-up gas spacing and proration unit comprising the W/2 of Section 23 at a gas well location considered to be standard at that time.

It is our understanding that Cross Timbers intends to recomplete this wellbore up-hole into the Gallup formation in an attempt to establish commercial hydrocarbon production.

Further, once the well is completed in the Gallup formation and production is established and is either classified "gas" or "oil", pursuant to Rule 5 (a) of the "*General Rules and Regulations for the Associated Oil and Gas Pools of Northwest New Mexico and Southeast New Mexico/Special Rules and Regulations for the Angels Peak-Gallup Associated Pool*," as promulgated by Division Order No. R-5353, as amended, either: (i) the W/2 of Section 23 is to be dedicated to this well in order to form a standard 320-acre stand-up gas spacing and proration unit for the Angels Peak-Gallup Associated Pool; or (ii) the N/2 SW/4 of Section 23 is to be dedicated to this well in order to form a standard 80-acre lay-down oil spacing and proration unit for the Angels Peak-Gallup Associated Pool.

The location of this well, rather classified as a gas well or an oil well, within the Angels Peak-Gallup Associated Pool is considered to be unorthodox, pursuant to Rule 2(b) of the "*General*

Administrative Order NSL-4401
Cross Timbers Operating Company
February 7, 2000
Page 2

Rules and Regulations for the Associated Oil and Gas Pools of Northwest New Mexico and Southeast New Mexico/Special Rules and Regulations for the Angels Peak-Gallup Associated Pool."

By the authority granted me under the provisions of Rule 2(c) of these special pool rules, the above-described unorthodox location within the Angels Peak-Gallup Associated Pool for the J. C. Gordon "D" Well No. 3 is hereby approved.

Sincerely,

A handwritten signature in cursive script, appearing to read "Lori Wrotenbery", followed by a small mark that looks like "LW".
