July 29, 1987

Amended Administrative Order No. DHC-658

ARCO Oil & Gas Company  
P.O. Box 1610  
Midland, TX 79702

Attention: J.T. Uecker

Re: Wimberly "WN" Well No. 7  
Unit B, Section 23, Township 25 South,  
Range 37 East, NMPM, Lea County, New Mexico,  
Justis Blinebry and Justis Tubb-Drinkard Pools.

Gentlemen:

Reference is made to your recent application for an exception to Rule 303-A of the Division Rules and Regulations to permit the subject well to commingle the production from both pools in the wellbore.

It appearing that the subject well qualifies for approval for such exception pursuant to the provisions of Rule 303-C, and that reservoir damage or waste will not result from such downhole commingling, and correlative rights will not be violated thereby, you are hereby authorized to commingle the production as described above and any Division Order which authorized the dual completion and required separation of the two zones is hereby placed in abeyance.

In accordance with the provisions of Rule 303.C.4., total commingled oil production from the subject well shall not exceed 40 barrels per day, and total water production from the well shall not exceed 80 barrels per day. The maximum amount of gas which may be produced daily from the well shall be determined by multiplying 6000 by the top unit allowable for the Justis Blinebry Pool.

In accordance with the provisions of Rule 303-C, the supervisor of the Hobbs District Office of the Oil Conservation Division shall determine the proper allocation of production from the subject well following its completion.

Pursuant to Rule 303-C 5, the commingled authority granted by this order may be rescinded by the Division Director if, in his opinion, conservation is not being best served by such commingling.

Very truly yours,

A handwritten signature in dark ink, appearing to read 'William J. LeMay', is written over the typed name. The signature is fluid and cursive, with a long horizontal stroke extending to the right.

WILLIAM J. LeMAY,  
Director

cc: OCD District Office - Hobbs

Remarks: This amended order re-establishes the maximum oil and water allowable at 40 and 80 barrels per day respectively for the subject well. The well is to be deepended to approximately 6040 feet.
