To:

New Mexico Oil Conservation Division

Attention:

William V Jones P.E.

RE.

Jalmat Field: 6 Commingling Applications

Lea County, New Mexico

Merit Energy Company has requested approval to commingle the Queen formation (Langlie Mattix Pool) with the Tansill-Yates-Seven Rivers formation (Jalmat Pool).

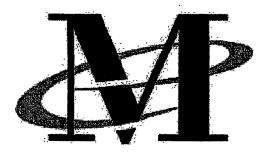

Commingling the Jalmat Pool with the Langlie Mattix Pool in A 15, D 23, O 3, and C 23 T22S R36E in Lea County is in the interest of both royalty owners and the conservation. Commingling will extend the life of each well and optimize recovery from Both Pools. The 6 well's commercial value will be extended 30 years based on estimated reserves from the Queen formation, and will ultimately allow uncommercial Jalmat Pool reserves to be recovered via production from the Queen. The Queen Completions are uneconomic if it is required by the NMOCD to seal off the Jalmat Pool from the Langlie Mattix Pool. Operationally, fluid samples will be collected before and after commingling. Scale inhibitors will be continuously pumped during operations. The fluid level will be maintained below the Jalmat pool both to optimize production and reduce any scaling tendencies.

Please let me know if you have any questions

Sincerely,

Brett Keener Operations Engineer <u>brett.keener@meritenergy.com</u> Phone: 972-628-1592

Fax: 972-682-1892

Merit Energy Company 13727 Noel Road, Suite 500 Dallas, TX 75240

Date:

June 27, 2011

To:

New Mexico Oil Conservation Division

Attention:

William V Jones P.E.

RE.

Jalmat Field: AAC-1 #43, 61,64,65,73,90 -Queen Commingling

Lea County, New Mexico

Merit Energy Company has requested approval to commingle the Yates formation (Jalmat Pool) with the Queen formation (Langlie-Mattix).

This well that we are asking to commingle does have "identically owned" (working/royalty/orri) interest from the surface to the base of the queen formation.

Please let me know if you have any questions

Sincerely

Matt Van Eaton Associate Landman
