Remediation Plan (1R427-99) Further Information Required**

Dear Mr. Conder:

The New Mexico Oil Conservation Division (OCD) has received Rice Operating Company's (ROC) termination request for the above-referenced site (dated June 27, 2013). The termination request indicates that additional information is required. Therefore, the OCD cannot approved the termination request for the remediation plan at this time:

ROC must further delineate vertically in the vadose zone for possible chloride release at the site. In addition, please submit a vertical delineation report to the OCD within 90 days.

If you have any questions regarding this matter, please contact me at 505-476-3489.
