Reference is made to your application received on August 6, 2013.

You have requested to drill this horizontal well at an unorthodox oil well location described above in the referenced pool or formation. This location is governed by special rules which provide for 80-acre units, with wells located at least 790 feet from a quarter section boundary, and Rule 15.16.14.B(2) [19.15.16.14.B(2) NMAC] concerning directional wells in designated project areas. This location is unorthodox because portions of the proposed completed interval are less than 790 feet from the quarter section lines that constitute the outer boundaries of the project area.
