If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*

A fiberglass collar broke while working on a water tank. The collar has been replaced and the tank has been put back into service.

Describe Area Affected and Cleanup Action Taken.*

Initially we released 300bbbs of produced water from the water tank at the Aid State SWD facility. We were able to pick up 298bbbs of produced water with a vacuum truck. The entire release was contained inside the dike walls of the facility, which is lined with a 40 mil liner. All of the contaminated gravel has been removed and replaced with clean gravel. The locations has been returned to its prior condition.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
