White Owl Well No. 1  
API No. 30-025-36689  
582 FNL & 330 FWL, Unit D

The commingled oil and gas production shall be measured and sold at the Pinot 1 central tank battery located in Lot 3 of Section 2. **Production will be allocated to the individual wells based on monthly well tests.** Although allocation by well tests is not ordinarily authorized where ownership of the commingled production is diverse, you have furnished us with signed consents from owners whom we understand are all of the owners of the production to be commingled pursuant to this order.

For future additions of wells, leases, and pools to the commingling operations, notice shall only be given to those interest owners in the wells, leases or pools to be added.

The operator shall notify the transporter of this commingling authority.

The operator shall notify the Hobbs district office of the Division upon commencement of commingling operations.

This order supersedes Order No. PLC-384 issued on October 17, 2013.

This approval is subject to like approval from the New Mexico State Land Office before commencement of the commingling operations.

Done at Santa Fe, New Mexico, on May 12, 2014.
