Re: Application of EOG Resources, Inc. for administrative approval of an unorthodox well location for its Hawk 26 Fed 2H Well to be located in Section 35, Township 24 South, Range 33 East, N.M.P.M., Lea County, New Mexico.

Dear Ms. Bailey:

EOG Resources, Inc. (OGRID No. 7377) seeks administrative approval of an unorthodox well location for its **Hawk 26 Fed 2H Well** to be completed within the Red Hills; Upper Bone Spring Shale Pool (Pool Code 97900) underlying Section 35, Township 24 South, Range 33 East, N.M.P.M., Lea County, New Mexico. This well will be drilled from a surface location 500 feet from the South line and 715 feet from the West line of Section 26, Township 24 South, Range 33 East but completed wholly within Section 35. The upper most perforation will be 10 feet from the North line and 884 feet from the West line of Section 35 (Unit D) and the lower most perforation will be 330 feet from the South line and 876 feet from the West line of Section 35 (Unit M). Since this acreage is governed by the Division's statewide rules which provides for wells to be located no closer than 330 feet to the outer boundary of the spacing unit, the upper most perforation for this well will be unorthodox, but the remaining portion of the completed interval will comply with the Division's setback requirements. Approval of the unorthodox completed interval will prevent waste of a productive reservoir and improve well performance.

Exhibit A is the Well Location and Acreage Dedication Plat (Form C-102), which shows that the completed interval of the proposed **Hawk 26 Fed 2H Well** encroaches on the spacing and proration units to the North and Northeast.

Exhibit B is a land plat for Section 35 and the surrounding sections that shows the proposed **Hawk 26 Fed 2H Well** in relation to adjoining units and existing wells.

EOG is the sole operator and mineral lessee of the federal lease covering Sections 26 and 35. Accordingly, there are no affected parties. Nonetheless, a copy of this application has been provided to the Bureau of Land Management.

Your attention to this matter is appreciated.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael H. Feldewert".

Subject: EOG Hawk 26 Fed wells pool id

Paul: I got 10 NSL' from EOG. The surface location is section 26 24S 33E. The producing interval is section 35 24S33E. What pool will these wells be in?

Thank You
Mike
