Dear Mr. von Gonten:

This letter serves as project notification that Animas Environmental Services, LLC (AES) has scheduled the groundwater sampling event at the above referenced site. The monitor well sampling activities have been scheduled for December 16, 2013, and will include monitoring and sampling of 13 monitor wells at the site in accordance with the workplan prepared by AES and dated August 3, 2012.

If you have any questions regarding the scheduled site work, please do not hesitate to contact me at (505) 564-2281.

Sincerely,

Heather M. Woods, P.G.
Project Manager

**RE: Project Notification for Development and Sampling of Monitor Wells
Enterprise Field Services, LLC
Lateral 6C
NE¼ SW¼, Section 26, T28N, R11W
San Juan County, New Mexico**

Dear Mr. von Gonten:

This letter serves as project notification that Animas Environmental Services, LLC (AES) has scheduled the groundwater monitor well development and sampling events at the above referenced site. Monitor well development activities will take place on Thursday, October 24, 2013, and will include the development of four monitor wells (MW-10 through MW-13). The sampling event is scheduled for Wednesday, October 30, 2013, and will include the monitoring and sampling of the monitor wells (MW-10 through MW-13). A final report will be submitted upon receipt of laboratory analytical results.

If you have any questions regarding the scheduled site work, please do not hesitate to contact me at (505) 564-2281.

Sincerely,

Heather M. Woods, P.G.

**RE: Project Notification for Continued Groundwater Investigation
Enterprise Field Services, LLC
Lateral 6C
NE¼ SW¼, Section 26, T28N, R11W
San Juan County, New Mexico**

Dear Mr. von Gonten:

This letter serves as project notification that Animas Environmental Services, LLC (AES) has scheduled a continued groundwater investigation at the above referenced site. Site activities have been scheduled for October 17, 2013, and will include installation of four soil borings to approximately 26 feet below ground surface (bgs) utilizing a DT 6620 track-mounted direct push rig, manufactured by Geoprobe®, and equipped with a 2-inch outer diameter (OD) core barrel. The soil borings will be completed as 1-inch diameter groundwater monitoring wells.

If you have any questions regarding the scheduled site work, please do not hesitate to contact Ross Kennemer or Heather Woods at (505) 564-2281.

Sincerely,

Landrea Cupps
