Michael McMillan
Oil Conservation Division
1220 South St. Francis Drive
Santa Fe, New Mexico 87505

Dear Mr. McMillan:

Pursuant to Division Rule NMAC 19.15.15.13, Rock Creek Resources, LLC applies for approval of an unorthodox oil well location for the following well:

<u>Well:</u>	White Well No. 4
<u>Location:</u>	2540 feet FNL & 1220 feet FEL
<u>Well unit (project area):</u>	SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 13, Township 10 South, Range 27 East, N.M.P.M., Chaves County, New Mexico

Applicant proposes to drill the well to test the Devonian formation (Race Track-Devonian Pool). The pool is spaced on 40 acres, with wells to be located no closer than 330 feet to a quarter-quarter section line. A plat of the location is attached as Exhibit A.

The history of drilling the Devonian formation in this section is as follows: The White Well No. 1 was drilled in 1970 as a producer. In 1993, after a 3D seismic survey was done, the White Well No. 3 was drilled, and is still producing. The White Well No. 1 was shut-in. Both wells (open hole) tested the top 10-15 feet of the Devonian formation. Rock Creek plans to drill the White Well No. 4 between the two existing wells, and test the entire Devonian section. Thus, the location is based on geological and geophysical reasons.

The well encroaches on the SW $\frac{1}{4}$ NE $\frac{1}{4}$ and N $\frac{1}{2}$ SE $\frac{1}{4}$ of Section 13. However, the E $\frac{1}{2}$ of Section 13 is covered by a single fee lease (Exhibit B), which has common ownership. **Therefore, notice of this application was not given to any interest owners.**

Please contact me if you need any further information on this application.

Very truly yours,

A handwritten signature in cursive script that reads "James Bruce". The signature is written in black ink and is positioned above the printed name.
