SECOND AMENDED APPLICATION FOR ADMINISTRATIVE NON-STANDARD LOCATION (NSL) ORDER

**Re: Huntington Energy, LLC
 CLU 25-6-15 Well No. 4H
 API No. 30-039-31240**

Dear Ms. Bailey:

On behalf of Huntington Energy, LLC (Operator) we hereby request administrative approval of the following proposed non-standard location for the above-referenced horizontal well:

Surface Location

454 feet FSL & 278 feet FEL

Unit P, Section 15, Township 25 North, Range 6 West, N.M.P.M.

Rio Arriba County, New Mexico

Beginning of Completed Interval

1070 feet FSL & 330 feet FEL, Unit I, Section 15

Terminus

1070 feet FSL & 330 feet FWL, Unit M, Section 15

This well will be completed as a stand-alone oil well partly within the Devils Fork Gallup Associated Pool, an expandable pool which is spaced for oil on 160 acres pursuant to NMOCD Orders R-5353 and R-5353-G. These orders also provide for setbacks of 790 feet from quarter-section boundaries. A project area comprising the South One-Half of Section 15 will be dedicated to the well.

This proposed location is non-standard because the beginning and end of the completed interval are each only 330 feet from the quarter section boundaries. The location is depicted on Form C-102, attached as Exhibit A.

This non-standard location is requested in order to prevent waste by achieving efficient production of the hydrocarbon reserves underlying the project area. Conforming to the 790-foot setback requirement would prevent completion of the well's lateral in a significant portion of the project area, thereby causing hydrocarbons that can be produced to be left in the reservoir.

The proposed location encroaches to the East and West ~~and South~~ toward the following lands that could be included in potential oil or gas spacing units in the Mancos formation:

W/2 and SE/4 Section 14
E/2 and SW/4 of Section 16

The location requested in this amended application will not encroach diagonally toward Section 21 or 23.

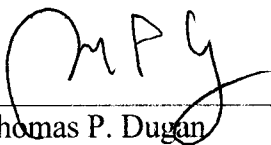

Pursuant to Rule 19.15.15.13.D NMAC, notice of this Application in the form attached as Exhibit B2, and including a copy of this Application and attachments, has been sent by Certified Mail, Return, Receipt Requested, or hand-delivered, prior to filing of this Application, to the operators identified in Amended Exhibit B1. In an abundance of caution, new notices of this amendment (together with copies of the modified Form C-102 attached hereto) were sent to the parties identified in Exhibit B1 to the amended application filed on September 22, although the proposed location is exactly the same as that requested in the September 22 amended application.

Changes in this Second Amended Application from the September 22 Amended Application are indicated by underscoring or cross-through font for the examiner's convenience. A revised form C-102 is attached, which has been changed from the C-102 originally filed only by deleting "640" in the "Dedicated Acres" box, and adding an outline around the proposed south-half project area.

Administrative approval of the above-identified location is accordingly requested. Please advise if further information is needed.

Very truly yours,

DUGAN & ASSOCIATES, P.C.

Re:

**Re: Huntington Energy, LLC
 CLU Well No. 25-6-15
 API No. Not yet assigned.**

Ladies and Gentlemen:

Please be advised that Huntington Energy, LLC will be filing an application with the New Mexico Oil Conservation Division for administrative approval of a proposed non-standard location for the referenced well.

The proposed non-standard location of this horizontal well is described in the attached application. This notice is being sent to you because the operator believes you are the operator or owner of a working interest in a potential offsetting spacing unit. A copy of the Application and all required attachments is enclosed.

If you have an objection to the attached Application, you should file your objection in writing with the New Mexico Oil Conservation Division, at the address shown in the Application, within 20 days from the date the Division receives the Application. The Division may approve the unorthodox location without further notice or hearing if no affected person has filed an objection within the 20-day period.

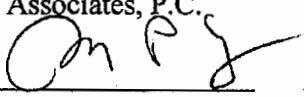

Page 2

In the event that you do not object to the proposed location, we would greatly appreciate your signing and dating the waiver of objection below and returning the same to us, so that approval of our application can be expedited.

Sincerely

Dugan & Associates, P.C.

By

Thomas P. Dugan

Subject: RE: Huntington energy CLU 25-6-15 #4H

Please see the responses below:

1. It is a typo; it is S1/2 of Section 15;
2. It was voluntarily agreed upon;
3. This is an oil prospect. It was intended to dedicate a 320-acre project area comprising to S1/2 of Section 15, which will be voluntarily consolidated.

Please advise if you will require re-notice to offsets.

Ms. Gomez:

I need a couple of things clarified in the application of Huntington energy CLU 25-6-15 #4H

- Your letter states the project area is the N/2 of Section 11; however, your C-102 stated the project area is the entire Section 15?
- Next, how was the project area created? Was it voluntarily agreed upon?
- How was the 640-acre project area created? Was the objective oil or gas?

Thank You

**Re: Huntington Energy, LLC
 CLU Well No. 25-6-15
 API No. 30-039-31240**

Ladies and Gentlemen:

This amended notice letter is being sent to you because of a change in the acreage to be included in the project area for the proposed well. There is no change in the proposed location of the well from the notice sent to you on September 22, 2014.

Please be advised that Huntington Energy, LLC will be filing an application with the New Mexico Oil Conservation Division for administrative approval of a proposed non-standard location for the referenced well.

The proposed non-standard location of this horizontal well is described in the attached application. This notice is being sent to you because the operator believes you are the operator or owner of a working interest in a potential offsetting spacing unit. A copy of the Amended Application and all modified form C-102 is enclosed.

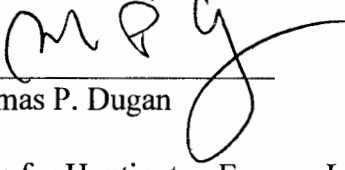

If you have an objection to this Application, you should file your objection in writing with the New Mexico Oil Conservation Division, at the address shown in the Application, within 20 days from the date the Division received the September 22 Application. The Division may approve the unorthodox location without further notice or hearing if no affected person has filed an objection within the 20-day period.

In the event that you do not object to the proposed location, we would greatly appreciate your signing and dating the waiver of objection below and returning the same to us, so that approval of our application can be expedited.

Sincerely

Dugan & Associates, P.C.

Proposed Canyon Largo Well 2506 15 #4H
S/2 Section 15-T25N-R6W
Rio Arriba County, NM

Gentlemen:

Huntington Energy, L.L.C. proposes to drill the subject well at a Non-Standard Location for the Devils Fork Gallup Pool as follows:

Surface location – 455' FSL and 278' FEL
Devils Fork Gallup formation entry point – 1070' FSL and 330' FEL
Bottom Hole location – 1070' FSL and 330' FWL

Burlington Resources Oil & Gas LP is the offset Operator directly to the East of the proposed entry point and West of the proposed Bottom Hole Location. Huntington Energy, L.L.C. respectfully requests Burlington Resources Oil & Gas LP's approval of the non-standard well location for the proposed CLU 2506-15 #4H well, and waiver of any objections thereto in Huntington's Non-Standard Location filings before the New Mexico Oil Conservation Division. If you agree, please signify your approval by executing below and returning this waiver to my attention at jkeller@huntingtonenergy.com and by mailing an original to the address shown above.

Sincerely,

A handwritten signature in cursive script that reads 'John P. Keller'.
