**Chaco 2308-04L Well No. 283H**  
**API No. 30-045-35608**

**Non-Standard Location**

**Proposed Location:**

|                   | <b>Footages</b>      | <b>Unit</b> | <b>Sec.</b> | <b>Twsp</b> | <b>Range</b> | <b>County</b> |
|-------------------|----------------------|-------------|-------------|-------------|--------------|---------------|
| Surface           | 2431` FSL & 405` FWL | L           | 4           | 23N         | 8W           | San Juan      |
| Penetration Point | 2163` FNL & 391` FEL | H           | 5           | 23N         | 8W           | San Juan      |
| Final perforation | 2214` FNL & 331` FWL | E           | 5           | 23N         | 8W           | San Juan      |
| Terminus          | 2215` FNL & 230` FWL | E           | 5           | 23N         | 8W           | San Juan      |

**Proposed Project Area:**

| <b>Description</b>     | <b>Acres</b> | <b>Pool</b>    | <b>Pool Code</b> |
|------------------------|--------------|----------------|------------------|
| S/2 NE /4 of Section 5 | 80           | Basin Mancos   | 97232            |
| S/2 NW/4 of Section 5  | 80           | Nageezi Gallup | 47540            |

Reference is made to your application received on March 19, 2015.

You have requested to drill this horizontal well at an unorthodox oil well location described above in the referenced pool or formation. This location is governed by the Special Rules for the Basin Mancos Gas Pool, which provides for 320-acre units with wells to be located at least 660 feet from outer unit boundaries, and Rule 19.15.16.14.B (2) NMAC concerning directional wells in designated project areas. This surface location is outside the project area, and is permitted by Rule 19.15.16.15.B (4) NMAC which allows for surface locations outside project area. This location is unorthodox because portions of the proposed completed interval are closer to outside boundaries of the proposed project area than any location that would be a standard location under the applicable pool rules.

Your application has been duly filed under the provisions of Division Rules 19.15.15.13 NMAC and 19.15.4.12.A(2) NMAC.

It is our understanding that you are seeking this location in order for efficient well spacing and to prevent waste of a productive reservoir.

It is also understood that you have given due notice of this application to all operators or owners who are "affected persons," as defined in Division Rule 19.15.4.12.A(2) NMAC in all adjoining units towards which the proposed location encroaches.

Pursuant to the authority conferred by Division Rule 19.15.15.13 (B) NMAC, the above-described unorthodox location is hereby approved.

#### **Non-Standard Proration Unit**

You have also requested approval of one or more non-standard proration to be included in your proposed project area, as follows:

#### **Units Comprising this Project Area**

| <u>Unit</u>           | <u>Acres</u> | <u>Pool</u>    | <u>Code</u> |
|-----------------------|--------------|----------------|-------------|
| S/2 NE/4 of Section 5 | 80           | Basin Mancos   | 97232       |
| S/2 NW/4 of Section 5 | 80           | Nageezi Gallup | 47540       |

A standard proration unit in the Basin Mancos Gas pool consists of 320-acres comprising a half-section. Your proposed non-standard proration unit consists of one or more contiguous quarter-quarter sections located entirely within the same half section.

Your application has been duly filed under the provisions of Division Rules 19.15.15.13 NMAC and 19.15.4.12.A(3) NMAC.

The applicant is seeking this non-standard proration unit in the Basin Mancos, because the project area consists of two pools with different spacing units, as described above. Next, according to Division Order R-12984 issued on September 3, 2008, the Nageezi Gallup Pool is not listed and frozen; therefore acreage outside of this pool in the project area is dedicated to the

Basin Mancos. Lastly, the non-standard proration unit in the Basin Mancos provides for a fair and equitable method to allocate production between the two pools.

It is understood that you have given due notice of this application to all operators or owners to whom notice is required by Division Rule 19.15.4.12.A(3) NMAC.

Pursuant to the authority conferred by Division Rule 19.15.15.11(B), the above-described non-standard proration unit is hereby approved.

**Down-Hole Commingling**

You have also requested permission to down-hole commingle production from the above-referenced pools within this wellbore.

It appearing that the subject well qualifies for approval for such exception pursuant to the provisions of Division Rule 19.15.12.11(A) NMAC, and that reservoir damage or waste will not result from such downhole commingling, and correlative rights will not be violated thereby, you are hereby authorized to commingle the production as described.

Assignment of allowable and allocation of production from the well shall be as follows:

|                     |                 |                 |
|---------------------|-----------------|-----------------|
| Basin Mancos Pool   | Pct Oil:<br>50% | Pct Gas:<br>50% |
| Nageezi Gallup Pool | Pct Oil:<br>50% | Pct Gas:<br>50% |

It is our understanding that the above allocation percentages are based on the acreage dedicated to the different pools in the project area.

It is also understood that you have given due notice of this application, as defined in Division Rule 19.15.4.12A.(6) NMAC, to all owners of interest within the Basin-Mancos and Nageezi-Gallup Pools.

The operator shall notify the Division's Aztec district office upon implementation of commingling operations.

Pursuant to Division Rule 19.15.12.11 (B) NMAC, the commingling authority granted herein may be rescinded by the Division Director if conservation is not being best served by such commingling.

**General provisions**

The above approvals are subject to your being in compliance with all other applicable Division rules, including, but not limited to Division Rule 19.15.5.9 NMAC.

Jurisdiction of this case is retained for the entry of such further orders as the Division may deem necessary.
