<u>Description</u>	<u>Acres</u>	<u>Pool</u>	<u>Pool Code</u>
W/2 NW/4 of Section 24	80	Tapacito Gallup (Associated)	58090

Reference is made to your application received on November 9, 2015.

You have requested to drill this well at an unorthodox gas well location described above in the referenced pool or formation. This location is governed by the Special Rules for the Tapacito – Gallup Associated Pool, which provides for 80-acre units with wells to be located at least 790 feet from outer unit boundaries. This location is less than 790 feet from a unit outer boundary.

Your application has been duly filed under the provisions of Division Rules 15.13 19.15.15.13 NMAC and 19.15.4.12.A (2) NMAC.

An unorthodox location is required in order to avoid cultural issues identified by the Bureau of Indian Affairs, and Jicarilla Apache Nation. Further NSL – 7347 was initially approved for the Basin Mancos Gas Pool and the OCD updated the pool to the Tapacito Gallup (Associated) pool.

It is also understood that you have given due notice of this application to all operators or owners who are "affected persons," as defined in Rule 19.15.4.12 (A) 2 NMAC, in all adjoining units towards which the proposed location encroaches. However, the affected party had signed a waiver.

Pursuant to the authority conferred by Division Rule 19.15.15.13 (B) NMAC, the above-described unorthodox location is hereby approved.

This approval is subject to your being in compliance with all other applicable Division rules, including, but not limited to Division Rule 19.15.5.9 NMAC.

This Order supersedes Administrative Order NSL – 7347, issued on September 22, 2015.

Jurisdiction of this case is retained for the entry of such further orders as the Division may deem necessary.

Done at Santa Fe, New Mexico, on November 20 , 2015.
