Good afternoon, Ms. Rogers

I have examined the referenced application. Since you checked the box on Form C107-B indicating that all interest owners have been notified, I am assuming that ownership is not identical as to all these wells, since notice to owners is not required where ownership is identical.

However, where ownership is not identical the following requirements apply:

Rule 19.15.12.10.C(4)(b) NMAC requires that you furnish a list of all owners to whom notice was sent.

Rule 19.15.12.10.C(4)(c) NMAC requires that you furnish a statement to the owners that if they have any objection to the proposed commingling, they must file that objection with OCD's Santa Fe office within 20 days from the date you application is filed with OCD.

Please furnish the list and statement as required by the above rules so that we can process your application.

Sincerely

David K. Brooks  
Legal Examiner

Rules Referenced Above:

(4) Approval process.

(a) In general. Where there is diversity of ownership, the division may grant an exception to the requirements of 19.15.12.9 NMAC to permit surface commingling of production from different leases, pools or leases and pools only after notice and an opportunity for hearing as provided in Paragraph (4) of Subsection C of 19.15.12.10 NMAC.

(b) Application. The operator shall submit an application for administrative approval to the division's Santa Fe office on form C-107-B, which shall contain a list of the parties (interest owners) owning an interest in the production to be commingled (including owners of royalty and overriding royalty interests whether or not they have a right or option to take their interests in kind) and a method of allocating production to ensure the protection of correlative rights.

(c) Notice. The applicant shall notify the interest owners in accordance with 19.15.4.12 NMAC. The applicant shall submit a statement attesting that the applicant, on or before the date the applicant submitted the application to the division, notified each of the interest owners by sending them a copy of the application and the attachments to the application, by certified mail, return receipt requested, and advising them that they must file any objection in writing with the division's Santa Fe office within 20 days from the date the division received the application. The division may approve the application administratively, without hearing, upon receipt of written waivers from interest owners, or if no interest owner has filed an objection within the 20-day period. If the division receives an objection, it shall set the application for hearing. The division shall notify the applicant, who shall give formal notice of the hearing to each party who has filed an objection and to such other persons as the division directs.

The applicant shall submit a statement attesting that the applicant, on or before the date the applicant submitted the application to the division, notified each of the interest owners by sending them a copy of the application and the attachments to the application, by certified mail, return receipt requested, and advising them that they must file any objection in writing with the division's Santa Fe office within 20 days from the date the division received the application. The division may approve the application administratively, without hearing, upon receipt of written waivers from interest owners, or if no interest owner has filed an objection within the 20-day period. If the division receives an objection, it shall set the application for hearing. The division shall notify the applicant, who shall give formal notice of the hearing to each party who has filed an objection and to such other persons as the division directs.

SUBJECT: REQUEST FOR A SURFACE COMMINGLE FOR THE STATE F 1 LEASE

Dear Mr. Brooks,

Under separate cover we submitted the request mentioned above. As part of that request we wish to include the working interest information.

ConocoPhillips Company hereby certifies that we have 100% Working Interest ownership for all the wells attached and the State is Royalty Interest owner.

A copy of this letter and original application has been sent to the State Land Office. The District office has been sent the original application and a copy of this letter also.

Please see attached copies for verification of notification.

If you have questions regarding this request, I can be reached at 432-688-9174 or via email at [rogerrs@conocophillips.com](mailto:rogerrs@conocophillips.com).

Sincerely,

Rhonda Rogers

Good afternoon Mr. Brooks,  
I apologize for the marking that the owners have been notified, for we have 100% working interest. I have attached the letter of interest owners and the verification of notification that I forgot to attach to the application. I will mail it to you also if you need me to. Thank you

Good afternoon, Ms. Rogers

I have examined the referenced application. Since you checked the box on Form C107-B indicating that all interest owners have been notified, I am assuming that ownership is not identical as to all these wells, since notice to owners is not required where ownership is identical.

However, where ownership is not identical the following requirements apply:

Rule 19.15.12.10.C(4)(b) NMAC requires that you furnish a list of all owners to whom notice was sent.

Rule 19.15.12.10.C(4)(c) NMAC requires that you furnish a statement to the owners that if they have any objection to the proposed commingling, they must file that objection with OCD's Santa Fe office within 20 days from the date you application is filed with OCD.

Please furnish the list and statement as required by the above rules so that we can process your application.

Sincerely

David K. Brooks  
Legal Examiner

Rules Referenced Above:

(4) Approval process.

(a) In general. Where there is diversity of ownership, the division may grant an exception to the requirements of 19.15.12.9 NMAC to permit surface commingling of production from different leases, pools or leases and pools only after notice and an opportunity for hearing as provided in Paragraph (4) of Subsection C of 19.15.12.10 NMAC.

(b) Application. The operator shall submit an application for administrative approval to the division's Santa Fe office on form C-107-B, which shall contain a list of the parties (interest owners) owning an interest in the production to be commingled (including owners of royalty and overriding royalty interests whether or not they have a right or option to take their interests in kind) and a method of allocating production to ensure the protection of correlative rights.

(c) Notice. The applicant shall notify the interest owners in accordance with 19.15.4.12 NMAC. The applicant shall submit a statement attesting that the applicant, on or before the date the applicant submitted the application to the division, notified each of the interest owners by sending them a copy of the application and the attachments to the application, by certified mail, return receipt requested, and advising them that they must file any objection in writing with the division's Santa Fe office within 20 days from the date the division received the application. The division may approve the application administratively, without hearing, upon receipt of written waivers from interest owners, or if no interest owner has filed an objection within the 20-day period. If the division receives an objection, it shall set the application for hearing. The

Good evening Ms. Rogers

Thanks for the response.

I do not think I need anything further. I will simply write the order omitting those wells.

Sincerely

Dear David;

Yes I do show all those wells P&A'd. I am sorry for not responding, I thought you were making a statement. Is there something else I need to do for the wells that are P&A'd?

Thank You
