Reference is made to your application received on April 18, 2018.

You have requested to drill this horizontal well at an unorthodox oil well location described above in the referenced pool or formation. Subsection A of 19.15.15.9 NMAC governs this pool and provides for 40-acre units, with wells located at least 330 feet from a unit outer boundary.

This well's completed interval is as close as 335 feet to the northeastern/southeastern edge, and 60 feet to the eastern edge of the project area. Encroachments will impact the following tracts.

Section 9, T26S R34E encroachment to the SE4 SE4
Section 16, T26S R34E encroachment to the E2 E2
Section 21, T26S R34E encroachment to the NE4 NE4

Division understands you have given notice of this application to all operators or owners who are "affected persons," as defined in Paragraph (2) of Subsection A of 19.15.4.12 NMAC, in all adjoining units towards which the proposed location encroaches.

Division understands you seek this location as a desired well spacing plan for horizontal wells and thereby preventing waste from the Wolfcamp formation underlying the W2 E2 of Section 16.

Your application has been filed under 19.15.15.13 NMAC and Paragraph (2) of Subsection A of 19.15.4.12 NMAC.

Per Subsection B of 19.15.15.13 NMAC, Division approves this unorthodox location.

The above approvals are subject to your following all other applicable Division rules.

Jurisdiction of this case is retained for the entry of further orders as Division deems necessary.
