**RE: Administrative Order SWD-1585; Second Extension of Deadline to Commence Injection**

Pardue 30 Com Well No. 1 (API 30-015-24144)  
Unit E, Sec 30, T23S, R28E, NMPM, Eddy County, New Mexico  
Order Date: October 1, 2015  
First extension to commence injection issued September 18, 2017.  
Injection into the Bell Canyon and Cherry Canyon formations; permitted interval: 2500 feet to 4590 feet

Dear Mr. Stone:

Reference is made to your request on behalf of Probity SWD, LLC. (the "operator") to extend the deadline stipulated in order SWD-1585 based upon the approval date of October 1, 2015, to commence injection for the above referenced well for an additional one year for reasons outlined in the attached correspondence. Previously, the order was approved for a one-year extension to a new deadline of October 1, 2018.

It is the Division's understanding from your request that there have been no significant changes in the information provided in the application submitted for review and approval of this order. These changes include the completion of new wells within the Area of Review that penetrated the approved injection interval and any changes in ownership.

The Division finds that granting this request to extend this administrative order is in the interest of conservation, will prevent waste, and will protect the environment.

SWD-1585: Second Extension of Deadline to Commence Injection  
Probity SWD, LLC  
August 20, 2018  
Page 2 of 2

---

The deadline to commence injection for the existing order is hereby extended until October 1, 2019. All requirements of the above referenced administrative order and agreements in the application remain in full force and effect. The injection authority shall expire under the terms of the extended administrative order and no further administrative extension of the deadline to commence injection for this order shall be considered.

Sincerely,

  
HEATHER RILEY  
Director
