Re: Ammended Application CTB-855 for administrative approval for off-lease measurement and sales point for gas production in a gathering system from the lands listed in Exhibit 3. Various sections and leases in Township 15S Range 28E and Township 15S Range 29E, NMPM, Chaves County, New Mexico.

Dear Sir:

Mack Energy Corporation (OGRID 013837) seeks administrative approval for off-lease measurement and approval to surface commingle gas production from the Round Tank; San Andres Pool (Pool Code 52770) from all existing and future wells and leases drilled within the mentioned areas of diverse ownership in T15S R28E and T15S R29E.

Pursuant to NMAC 19.15.12.7, approved spacing units with diverse ownership are considered separate leases for surface commingling purposes. Mack Energy is requesting approval to surface commingle production according to the provisions of NMAC 19.15.12.10.C from all existing and future wells in these separate areas of diverse ownership at central sales point in Sec. 4 T16S R29E. Pursuant to 19.15.12.10(C)(4)(g), Mack Energy requests authority to produce future leases with notice provided to only the interest owners of the future leases. Each lease involved has its own allocation and test meter for allocation purposes. Oil and Gas production at each CTB facility will be measured using test meters and 7 day test cycles.

Exhibit 1 is a land map showing Mack's added development and gathering system in the subject area.

Exhibit 2 is a completed Application for Surface Commingling (Diverse Ownership) and Off-Lease Measurement Form C107B.

Exhibit 3 is a list of all lands associated with this commingling application.

Exhibit 4 is a C-102 for each well being added within the project area.

Exhibit 5 is a list of the interests affected by this request for off-lease measurement and surface commingling of gas production, within our gathering system. A copy of this application with all attachments has been sent by certified mail to all affected parties advising them that if they have an objection they must file it in writing with the division within 20 of the date the division receives Mack's application.

Your attention to this matter is greatly appreciated.

Sincerely,

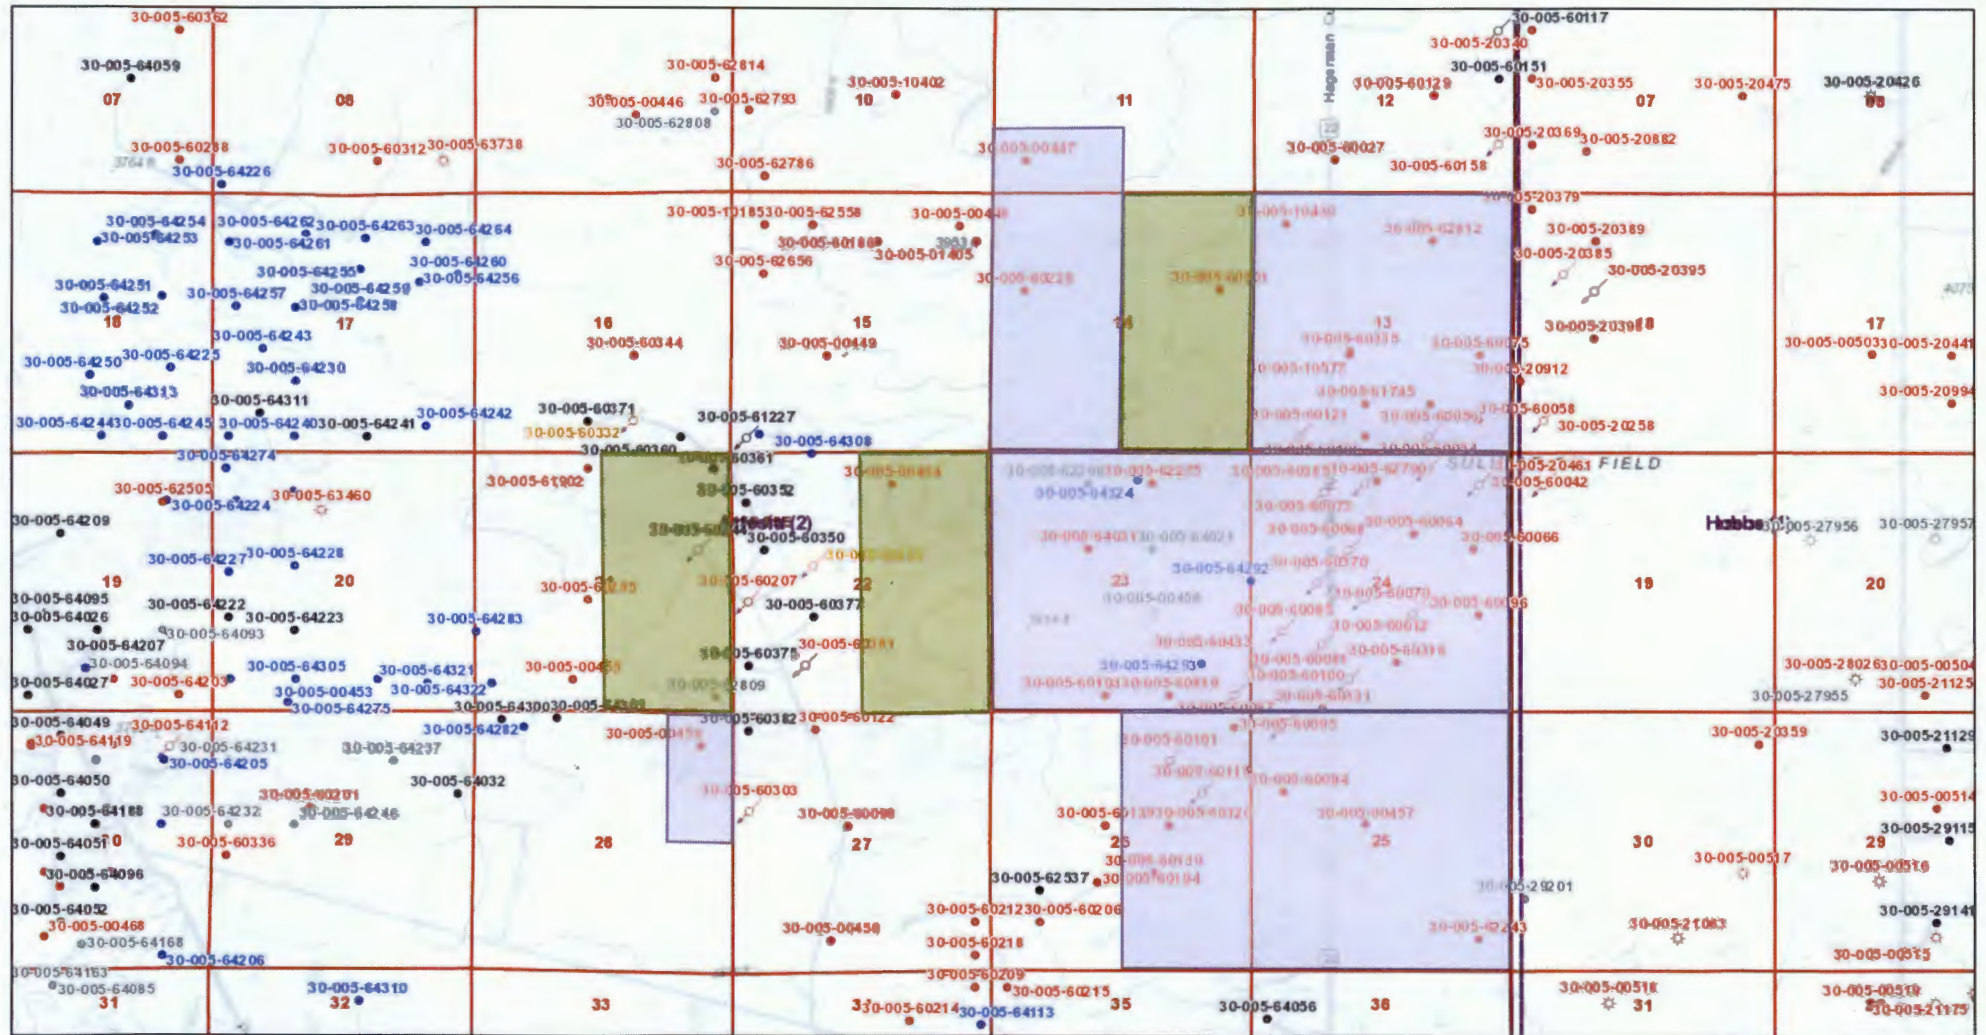

A handwritten signature in cursive script that reads "Jerry W. Sherrell".

RE: Mack Energy Corporation & Chase Affiliates

Dear Mr. McMillan:

Mack Energy Corporation is a Chase Family owned entity. The following Chase individuals or companies are all affiliates of Mack Energy Corporation and usually own an interest in wells drilled and/or operated by Mack Energy Corporation.

- Mack C. Chase Trust
- Robert C. Chase
- Richard L. Chase or Ventana Minerals LLC
- Gerene Dianne Chase Ferguson or DiaKan Minerals LLC
- Broken Arrow Royalties LLC
- Chase Oil Corporation

All of these family members and companies all office in the same building so notifications can be hand delivered; therefore we request that the certified mail process be waived when these parties are involved.

If you have any questions or need additional information please do not hesitate to contact me. Your assistance is greatly appreciated.

Sincerely,
Mack Energy Corporation

Dear Sir:

Mack Energy Corporation is requesting administrative approval from the NMOCD for approval of Off Lease Measurement/Surface Commingling of Gas production from multiple leases at a central sales meter located in Sec. 4 T16S R29E. The existing DCP gas line is no longer capable of handling production from this area. Mack Energy has installed a 10' gas pipeline to get Gas Production from this area to the sales point. All gas production will continue to be measured at the Tank Battery or Central Tank Battery using a Total Flow Meter.

Enclosed is a copy of this application which was filed with the New Mexico Oil Conservation Division on this date. Any objection to this application must be filed in writing within twenty days from this date at the Division's Santa Fe office located at 1220 South St. Francis Drive, Santa Fe, New Mexico, 87505. If no objection has been made within the 20 days period, this application may be approved administratively by the Division.

Should you have any questions please contact me @ 575-748-1288.

Sincerely,

ADMINISTRATIVE CENTRAL TANK BATTERY ORDER

Administrative Order CTB-855

Mack Energy Corporation
Attn: Mr. Jerry Sherrell

Mack Energy Corporation (OGRID 13837) is hereby authorized to surface commingle gas production from diversely owned leases and wells identified in Attachment A, and made part of this order. These wells and leases produce from Round Tank; San Andres (Pool code 52770) and are located on Federal and State leases in Township 15 South, Range 28 and 29 East, Chaves County, New Mexico.

Production from the subject wells shall be determined as follows:

The gas production from wells in Attachment A shall be sold at the Facility Measurement Point (FMP) located in Unit O, Section 4, Township 16 South, Range 29 East, NMPM, Eddy County New Mexico.

The oil and gas production from each of the diversely-owned leases shall be measured with a combination of metering and well testing. Each of the wells shall be tested a minimum of seven days per cycle. The oil production from each well shall be measured and sold at each surface facility listed in Attachment A, which will be the subject of future administrative orders.

The operator shall notify the transporter of this commingling authority.

For future additions of wells and leases to this commingling operation, notice shall only be given to those interest owners in the wells and leases to be added, in accordance with Division Rule 19.15.12.10 C (4) (g) NMAC.

Subsequent wells within leases approved by this order may be added to this administrative surface commingle application with a Sundry notice to the Engineering Bureau.

This administrative order supersedes any previous administrative order for gas measurement only for wells listed in Attachment A.

The operator shall notify the Artesia district office of the Division upon commencement of commingling operations.

Administrative Order CTB-855
Mack Energy Corporation
