VIA ONLINE FILING

Adrienne Sandoval, Director Oil Conservation Division New Mexico Department of Energy, Minerals and Natural Resources 1220 South Saint Francis Drive Santa Fe, New Mexico 87505

Re: Application of Devon Energy Production, LP, for administrative approval of an unorthodox well location for its Papas Fritas 27-22 Fed Com 621H Well in the W/2 of Sections 22 and 27, Township 23 South, Range 29 East, N.M.P.M., Eddy County, New Mexico.

Dear Ms. Sandoval:

Devon Energy Production, LP ("Devon") (OGRID No. 6137) seeks administrative approval of an unorthodox well location for its **Papas Fritas 27-22 Fed Com 621H Well** (API No. 30-025-pending) to be completed within the Purple Sage Wolfcamp Pool (98220) underlying the W/2 of Sections 22 and 27, Township 23 South, Range 29 East, N.M.P.M., Eddy County, New Mexico. This well will be drilled from a surface location 102 feet from the north line and 993 feet from the west line (Unit D) of Section 34 to a bottom hole location 20 feet from the north line and 1,254 feet from the south line and 1,254 feet from the west line (Unit D) of Section 27 and the lower most perforation will be 100 feet from the north line and 1,254 feet from the west line (Unit D) of Section 22.

Pursuant to Division Order R-14262, this acreage is governed by the Special Rules for the Purple Sage-Wolfcamp Gas Pool which provide for wells in the Wolfcamp formation in Eddy County to be located no closer than 330 feet to the outer boundary of the spacing unit. The completed interval for the **Papas Fritas 27-22 Fed Com 621H Well** will be unorthodox because it is closer than 330 feet to the northern and southern boundaries of the project area. Approval of the unorthodox completed interval will allow Devon to use its preferred well spacing plan for horizontal wells in this area and thereby prevent waste.

Exhibit A is a Well Location and Acreage Dedication Plat (Form C-102), which shows that the completed interval of the proposed **Papas Fritas 27-22 Fed Com 621H Well** encroaches on the drilling and spacing units to the north and south.

Exhibit B is a land plat for Sections 15, 22, 27, and 34 that shows the proposed **Papas Fritas 27-22 Fed Com 621H Well** in relation to the adjoining spacing units to the north and south in Sections 15 and 34.

Exhibit C is a list of the parties affected by the encroachment to the north and south. Ownership is diverse between the subject spacing unit and the tracts to the north and south. The affected parties in the spacing units in all of Section 15 and the W/2 of Section 34, include the Bureau of Land Management and the New Mexico State Land Office. A copy of this application with all attachments has been sent by certified mail to each affected party advising them that if they have an objection it must be filed in writing with the Division within 20 days from the date the Division receives the application.

Exhibit D is a statement from a Devon's petroleum engineer confirming that Devon's requested unorthodox location is necessary to optimize well spacing, thereby preventing waste.

Your attention to this matter is appreciated.

Sincerely

Kaitlyn A. Luck

<u>VIA CERTIFIED MAIL</u> RETURN RECEIPT REQUESTED

TO AFFECTED PARTIES:

Re: Application of Devon Energy Production, LP, for administrative approval of an unorthodox well location for its Papas Fritas 27-22 Fed Com 621H Well in the W/2 of Sections 22 and 27, Township 23 South, Range 29 East, N.M.P.M., Eddy County, New Mexico.

Ladies and Gentlemen:

Enclosed is a copy of the above-referenced application which was filed with the New Mexico Oil Conservation Division on this date. Any objection to this application must be filed in writing within twenty days from this date with the applicant and the New Mexico Oil Conservation Division, 1220 South St. Francis Drive, Santa Fe, New Mexico, 87505. If no objection is received within this twenty-day period, this application may be approved administratively by the Division.

RE:

Application for Nonstandard Locations

Engineering Statement

Devon Energy Production Company, L.P.

Papas Fritas 27-22 Fed Com 621H, 622H, 623H,

711H, 712H, and 713H wells Sections 22 & 27-235-29E Eddy County, New Mexico

Dear Mr. Lowe:

Devon Energy Production Company, L.P. respectfully requests administrative approval of a non-standard location for each of the Papas Fritas Wells referenced above by decreasing the first and last take points from 330 feet to 100 feet from the horizontal plane outer boundary. The wells are located in the Purple Sage-Wolfcamp Gas Pool (Pool Code 98220). It is Devon's responsibility as a prudent operator to maximize lateral length and to minimize reserves left in the ground. Decreasing the first and last take point will increase the wells effective lateral length by 460 feet thereby increasing ultimate recovery of reserves and thereby preventing waste of natural resources.

Sincerely,

Lauren Sykes Reservoir Engineer
