Re: Application for Surface Commingling the Lea A State, State 197 and State X Leases in  
Lea County, New Mexico

Dear Sir or Madam:

Due to current facility limitations, Mammoth Exploration LLC ("Mammoth") is requesting administrative approval from the NMOCD for Surface Commingling of oil and gas production from the Mammoth operated Lea A State #1, #2, #3, #4, #5, & #6 wells, State 197 #1 well and State X #1, #2, & #3 wells.

You are receiving this letter because our records indicate that you own an interest in one or more of the above described wells and Mammoth requests your approval to commingle oil and gas production from the State 197 and State X wells with and into the Lea A State facility. Commingling production will allow Mammoth to produce and operate these wells more efficiently and economically.

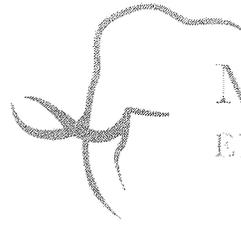

Proper production allocation will be achieved by testing each well semi-annually or more often as necessary.

Any objections must be made in writing and sent to the New Mexico Oil Conservation Division located at 1220 S. St. Francis Drive, Santa Fe, New Mexico 87505 within 20 days from the date of this letter.

Should you have any questions, please feel free to contact me via email at [griffin@mammothexp.com](mailto:griffin@mammothexp.com) or at my phone number listed below.

Sincerely,

Griffin Hays
