The oil production from these wells will be measured and stored in a CTB located on lease. However, in the event the CTB on lease is over capacity or in the case of battery or pipeline repairs, the oil production from these wells may also be transported by truck to either the Red Hills Offload Station, located in Unit O, Section 4-T26S-R32E, or the Jal Offload Station, located in Unit D, Section 4-T26S-R37E, Lea County. Oil will remain segregated and will be measured by lact meter when offloading at the Offload Stations.

Notices have been sent to all working interest owners as required.

Also, please see the attached Administrative Application Checklist, plats for referenced wells, proof of notice to interest owners, diagrams of site facility, maps with lease boundaries showing well and facility locations.

Thank you for your attention to this matter.

Sincerely,

The oil production from these wells will be measured and stored in a CTB located on lease. However, in the event the CTB on lease is over capacity or in the case of battery or pipeline repairs, the oil production from these wells may also be transported by truck to either the Red Hills Offload Station, located in Unit O, Section 4-T26S-R32E, or the Jal Offload Station, located in Unit D, Section 4-T26S-R37E, Lea County. Oil will remain segregated and will be measured by lact meter when offloading at the Offload Stations

Should you or your company have an objection to this application, it must be filed in writing within 20 days from the date of this notice. The Division Director may approve the Off-lease Measurement Facility if no objection has been made twenty (20) days after application is received.

Sincerely,

Bobbie Goodloe
