Subject: [EXT] RE: Inquiry into current applications
Attachments: OWL - OCD SWD Query Feedback.xlsx

See attached. For 2020 we do not have any drill plans due to operators decreasing activity. The Priority 1s are wells we should need in 2021. Hope this helps.

Subject: Inquiry into current applications

Dear Mr. Hines,

In an effort to maintain focus on applications that operators would like to prioritize in the current market situation the division is reaching out to them to inquire about how you would like to proceed with your current C-108 submissions. I have attached a list of the C-108 applications that the division is currently tracking for OWL SWD Operating, LLC along with the divisions' comments on status. If you could please indicate/communicate back which applications have become a priority, if there are any that you no longer wish to pursue, or if there are any discrepancies between our records and yours it would greatly help to focus efforts on desired projects. If you have any questions please feel free to reach out.

Kind regards,

Baylen Lamkin
