---

Hi Dean,

Apologies for the confusion. Is it OK if I give you a call tomorrow morning to discuss?

I'm attaching the packet that was submitted to BLM, along with the confirmation.

Thanks,

**Beth Schenkel** | Sr Facilities Engineer | Regulatory Compliance  
O: 713.497.2055 | C: 713.557.4141

Hello Beth,

There may be a misunderstanding of what I am looking for.

Per 19.15.23.9(A)(6) NMAC which states, "if state, federal or tribal lands are involved, the operator has notified the state land office or the BLM, as applicable." The BLM needs to be notified of the application before the OCD. I will need to either see where it was mailed to them with a certified tracking number or else submitted electronically to them. This is essentially the same as notice being sent to a working interest owner except the 20 day waiting period is not needed.

**Subject:** [EXT] RE: Off Lease Measurement application for Cedar Canyon 23 24 Fed Com 34H

Dean,

The submitted sundry is the first OLM application for Cedar Canyon 23 24 Federal Com 34H as this is the first time we want to bring it to the Cedar Canyon 22 Satellite facility.

I'm attaching the previously approved OLM application for Cedar Canyon 27 State Com 10H. This well is going to be moved to another train at Cedar Canyon 22 Satellite – please refer to recently approved PLC-685 also attached.

Please let me know if you have any other questions.

Thanks,

Hello Beth,

The submitted BLM sundry seems to be referencing that the Cedar Canyon 23 24 Federal Com 34H is replacing the Cedar Canyon 27 State Com 10H, but within this sundry there is not a mention that the 10H nor 34H has a pending application with the OCD requesting OLM authorization.

Hello Ms. Schenkel,

I am reviewing the off lease measurement application (OLM-206) for the Cedar Canyon 23 24 Fed Com 34H operated by Oxy USA, Inc.

Please provide the following:

- A statement from a landman stating the working interest is 100% owned by Oxy.
- Confirmation that notification of this application was sent to the BLM.
