

Amanda,

We have reviewed your latest submissions on numerous sites and their associated District II Remediation Permit (2-RP) numbers. The available data indicates, that for the 2-RP's listed below (2-RP numbers only), that Concho has met the requirements of 19.15.29 NMAC. No further action is required at this time and the Division considers these incidents to be closed. It may take some time to get all of these incidents into the On Line Imaging file, but this will happen. Please keep a copy of this electronic communication as it will be the only official notification of these closures. Your office may have been notified on some of these sites already, however, this is the official notification.

There will be future communication indicating those sites/incidents that have been deferred for further action. Generally until P&A activities at the site proper.

As always, these determinations do not relieve Concho of responsibility should future information indicate a threat to groundwater, surface water, human health, or the environment. Furthermore, it does not relieve Concho of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Closure List (RP's)

13, 3089, 1408, 761, 1220, 1186, 1224, 1090, 1271, 1067, 1061, 1327, 1270, 2034, 1014, 637, 819, 467, 676, 649, 794, 1096, 1011, 749, 651, 868, 926, 1563, 3089, 1140, 580, 560, 646, 1191, 1538, 606, 1163, 1243 and 459.

Sincerely,

Bradford Billings
