Re: Application of EOG Resources, Inc. for administrative approval of an unorthodox well location for its Osprey 10 #707H Well in the E/2 SW/4 of Section 3, and the E/2 W/2 of Section 10, Township 25 South, Range 34 East, N.M.P.M., Lea County, New Mexico.

Dear Ms. Sandoval:

EOG Resources, Inc. (OGRID No. 7377) seeks administrative approval of an unorthodox well location for its **Osprey 10 #707H Well** (API No. 30-025-46453) to be completed within the WC-025 G-09 S253402N; WOLFCAMP Pool [98116], underlying the E/2 SW/4 of Section 3, and the E/2 W/2 of Section 10, Township 25 South, Range 34 East, N.M.P.M., Lea County, New Mexico.

This well has been drilled and completed at a surface location 200 feet from the south line and 1733 feet from the west line (Unit N) of Section 10. The *first take point* is located 100 feet from the south line and 2586 feet from the west line (Unit N) of Section 10, and the *last take point* is located 2535 feet from the south line and 2585 feet from the west line (Unit K) of Section 3. Since this acreage is governed by the Division's statewide rules, the completed interval for this well will be unorthodox because it is closer than the standard offsets to the eastern boundary of the spacing unit. Approval of the unorthodox completed interval will allow EOG to use their preferred well spacing plan for horizontal wells in this area and thereby prevent waste.

Exhibit A is a Well Location and Acreage Dedication Plat (Form C-102), which shows that the completed interval of the proposed **Osprey 10 #707H Well** encroaches on the spacing unit/tracts to the east in the W/2 E/2 of Sections 3 and 10.

Exhibit B is a plat for Sections 3 and 10 that shows the proposed **Osprey 10 #707H Well** in relation to adjoining spacing unit to the east.

Ownership is diverse between the subject spacing unit and the affected spacing unit to the east. However, please note that each of the affected parties in the W/2 E/2 have an interest in the encroaching well. **Exhibit C** is a landman statement reflecting the "affected parties" and proof that a copy of this application with all attachments has been sent by certified mail to each affected party advising that any objections must be filed in writing with the Division within 20 days from the date the Division receives the application. Also attached with Exhibit C is a copy of the affidavit of publication for this application for approval of an unorthodox well location.

Exhibit D is statement from a petroleum engineer providing justification for the needed exception.

Your attention to this matter is appreciated.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Kaitlyn A. Luck', is written over a horizontal line.

Application of EOG Resources, Inc. for administrative approval of an unorthodox well location for its Osprey 10 #707H Well (API No. 30-025-46453) to be completed within the WC-025 G-09 S253402N; WOLFCAMP Pool [98116], underlying the E/2 SW/4 of Section 3, and the E/2 W/2 of Section 10, Township 25 South, Range 34 East, N.M.P.M., Lea County, New Mexico. This well has been drilled and completed at a surface location 200 feet from the south line and 1733 feet from the west line (Unit N) of Section 10. The first take point is located 100 feet from the south line and 2586 feet from the west line (Unit N) of Section 10, and the last take point is located 2535 feet from the south line and 2585 feet from the west line (Unit K) of Section 3. Since this acreage is governed by the Division's statewide rules, the completed interval for this well will be unorthodox because it is closer than the standard offsets to the eastern boundary of the spacing unit. Approval of the unorthodox completed interval will allow EOG to use their preferred well spacing plan for horizontal wells in this area and thereby prevent waste.

Any objection to this application must be filed in writing within twenty days from this date with the applicant and the New Mexico Oil Conservation Division, 1220 South St. Francis Drive, Santa Fe, New Mexico, 87505. If no objection is received within this twenty-day period, this application may be approved administratively by the Division. If you have any questions about this application, please contact the following: Laci Stretcher, EOG Resources, Inc., (432) 247-6362, laci_stretcher@eogresources.com. #35908

Re: EOG Resources NSL Application
Osprey 10 #707H

To whom it may concern:

A non-standard location is necessary to develop the Wolfcamp formation, specifically Clastics Y, in this section efficiently and in an economic manner. Because of other existing Wolfcamp formation wells, a non-standard location optimizes pressures related to the completion and production drawdown of the wells and is expected to yield a higher ultimate recovery than a standard location, thereby preventing waste and protecting correlative rights.

Sincerely,

Recoverable Signature

X A handwritten signature in black ink, appearing to read "Anish Singh Chaudhary", written over a horizontal line.
